SEC. 376. REVIEW OF AH-64 AIRCRAFT PROGRAM.

(a) **REQUIREMENT FOR REVIEW.**—The Comptroller General shall conduct a review of the Army's AH-64 aircraft program to determine—

(1) whether obsolete spare parts, rather than spare parts for the latest aircraft configuration, are being procured;

(2) whether there is insufficient sustaining system technical support;

(3) whether technical data packages and manuals are obsolete;

(4) whether there are unfunded requirements for airframe and component upgrades; and

(5) if one or more of the conditions described in the preceding paragraphs exist, whether the readiness of the aircraft is impaired by the conditions.

(b) **REPORT.**—Not later than March 1, 2001, the Comptroller General shall submit to the congressional defense committees a report on the results of the review under subsection (a).

SEC. 377. REPORT ON AIR FORCE SPARE AND REPAIR PARTS PROGRAM FOR C-5 AIRCRAFT.

(a) **FINDINGS.**—Congress makes the following findings:

(1) There exists a significant shortfall in the Nation's current strategic airlift requirement, even though strategic airlift remains critical to the national security strategy of the United States.

(2) This shortfall results from the slow phase-out of C-141 aircraft and their replacement with C-17 aircraft and from lower than optimal reliability rates for the C-5 aircraft.

(3) One of the primary causes of these reliability rates for C-5 aircraft, and especially for operational unit aircraft, is the shortage of spare repair parts. Over the past 5 years, this shortage has been particularly evident in the C-5 fleet.

(4) Not Mission Capable for Supply rates for C-5 aircraft have increased significantly in the period between 1997 and 1999. At Dover Air Force Base, Delaware, for example, an average of 7 to 9 C-5 aircraft were not available during that period because of a lack of parts.

(5) Average rates of cannibalization of C-5 aircraft per 100 sorties of such aircraft have also increased during that period and are well above the Air Mobility Command standard. In any given month, this means devoting additional manhours to cannibalization of C-5 aircraft. At Dover Air Force Base, for example, an average of 800 to 1,000 additional manhours were required for cannibalization of C-5 aircraft during that period. Cannibalization is often required for aircraft that transit through a base such as Dover Air Force Base, as well as those that are based there.

(6) High cannibalization rates indicate a significant problem in delivering spare parts in a timely manner and systemic problems within the repair and maintenance process, and also demoralize overworked maintenance crews.

(7) The C-5 aircraft remains an absolutely critical asset in air mobility and airlifting heavy equipment and personnel to both military contingencies and humanitarian relief efforts around the world.

(8) Despite increased funding for spare and repair parts and other efforts by the Air Force to mitigate the parts shortage problem, Congress continues to receive reports of significant cannibalization to airworthy C-5 aircraft and parts backlogs.

(b) **REPORT REQUIRED.**—Not later than January 1, 2001, and September 30, 2001, the Secretary of the Air Force shall submit to Congress a report on the overall status of the spare and repair parts program of the Air Force for the C-5 aircraft.

PUBLIC LAW 106-398—APPENDIX

(c) ELEMENTS OF REPORT.—Each report shall include the following:

(1) A statement of the funds currently allocated to the acquisition of spare and repair parts for the C-5 aircraft and the adequacy of such funds to meet current and future repair and maintenance requirements for that aircraft.

(2) A description of current efforts to address shortfalls in the availability of spare and repair parts for the C-5 aircraft, including an assessment of potential short-term and long-term effects of such efforts.

(3) An assessment of the effects of such parts shortfalls on readiness and reliability ratings for the C-5 aircraft.

(4) A description of rates at which spare and repair parts for one C-5 aircraft are taken from another C-5 aircraft (known as parts cannibalization) and the manhours devoted to part cannibalization of such aircraft.

(5) An assessment of the effects of parts shortfalls and parts cannibalization with respect to C-5 aircraft on readiness and retention.

SEC. 545. SENSE OF CONGRESS ON THE COURT-MARTIAL CONVICTION OF CAPTAIN CHARLES BUTLER McVAY, COMMANDER OF THE U.S.S. INDIANAPOLIS, AND ON THE COURAGEOUS SERVICE OF THE CREW OF THAT VESSEL.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Shortly after midnight on the morning of July 30, 1945, during the closing days of World War II, the United States Navy heavy cruiser U.S.S. Indianapolis (CA-35) was torpedoed and sunk by the Japanese submarine I-58 in what became the worst sea disaster in the history of the United States Navy.

(2) Although approximately 900 of the ship's crew of 1,196 survived the actual sinking, only 316 of those courageous sailors survived when rescued after four and a half days adrift in

PUBLIC LAW 106-398—APPENDIX

the open sea, the remainder having perishing from battle wounds, drowning, predatory shark attacks, exposure to the elements, and lack of food and potable water.

(3) Rescue for the remaining 316 sailors came only when they were spotted by chance by Navy Lieutenant Wilbur C. Gwinn while flying a routine naval air patrol mission.

(4) After the end of World War II, the commanding officer of the U.S.S. Indianapolis, Captain Charles Butler McVay, III, who was rescued with the other survivors, was court-martialed for “suffering a vessel to be hazarded through negligence” by failing to zigzag (a naval tactic employed to help evade submarine attacks) and was convicted even though—

(A) the choice to zigzag was left to Captain McVay’s discretion in his orders; and

(B) Motchisura Hashimoto, the commander of the Japanese submarine that sank the U.S.S. Indianapolis, and Glynn R. Donaho, a United States Navy submarine commander highly decorated for his service during World War II, both testified at Captain McVay’s court-martial trial that the Japanese submarine could have sunk the U.S.S. Indianapolis whether or not it had been zigzagging, an assertion that has since been reaffirmed in a letter to the Chairman of the Committee on Armed Services of the Senate dated November 24, 1999.

(5) Although not argued by Captain McVay’s defense counsel in the court-martial trial, poor visibility on the night of the sinking (as attested in surviving crew members’ handwritten accounts recently discovered at the National Archives) justified Captain McVay’s choice not to zigzag as that choice was consistent with the applicable Navy directives in force in 1945, which stated that, “During thick weather and at night, except on very clear nights or during bright moonlight, vessels normally cease zig-zagging.”.

(6) Before the U.S.S. Indianapolis sailed from Guam on what became her final voyage, Naval officials failed to provide Captain McVay with available support that was critical to the safety of the U.S.S. Indianapolis and her crew by—

(A) disapproving a request made by Captain McVay for a destroyer escort for the U.S.S. Indianapolis across the Philippine Sea as being “not necessary”; and

(B) not informing Captain McVay that naval intelligence sources, through signal intelligence (the Japanese code having been broken earlier in World War II), had become aware that the Japanese submarine I-58 was operating in the area of the U.S.S. Indianapolis’ course (as disclosed in evidence presented in a hearing of the Committee on Armed Services of the Senate conducted September 14, 1999); and

(C) not informing Captain McVay of the sinking of the destroyer escort U.S.S. Underhill by a Japanese submarine within range of the course of the U.S.S. Indianapolis four days before the U.S.S. Indianapolis departed Guam for the Philippine Islands.

(7) Captain McVay’s court-martial initially was opposed by his immediate command superiors, Fleet Admiral Chester Nimitz (CINCPAC) and Vice Admiral Raymond Spruance of the 5th fleet, for whom the U.S.S. Indianapolis had served as flagship, but, despite their recommendations, Secretary of the Navy James Forrestal ordered the court-martial, largely on the basis of the recommendation of Fleet Admiral Ernest King, Chief of Naval Operations.

(8) There is no explanation on the public record for the overruling by Secretary Forrestal of the recommendations made by Admirals Nimitz and Spruance.

PUBLIC LAW 106-398—APPENDIX

(9) Captain McVay was the only commander of a United States Navy vessel lost in combat to enemy action during World War II who was subjected to a court-martial trial for such a loss, even though several hundred United States Navy ships were lost in combat to enemy action during World War II.

(10) The survivors of the U.S.S. Indianapolis overwhelmingly conclude that Captain McVay was not at fault in the loss of the U.S.S. Indianapolis and have dedicated their lives to vindicating their Captain McVay.

(11) Although promoted to the grade of rear admiral in accordance with then-applicable law upon retirement from the Navy in 1949, Captain McVay never recovered from the stigma of his post-war court-martial and in 1968, tragically, took his own life.

(12) Charles Butler McVay, III—

(A) was a graduate of the United States Naval Academy;

(B) was an exemplary career naval officer with an outstanding record (including participation in the amphibious invasions of North Africa, the assault on Iwo Jima, and the assault on Okinawa where the U.S.S. Indianapolis under his command survived a fierce kamikaze attack);

(C) was a recipient of the Silver Star earned for courage under fire during the Solomon Islands campaign; and

(D) with the crew of the U.S.S. Indianapolis, had so thoroughly demonstrated proficiency in naval warfare that the Navy entrusted him and the crew of the U.S.S. Indianapolis with transporting to the Pacific theater components necessary for assembling the atomic bombs that were exploded over Hiroshima and Nagasaki to end the war with Japan (delivery of such components to the island of Tinian having been accomplished on July 25, 1945).

(b) SENSE OF CONGRESS CONCERNING CHARLES BUTLER MCVAY, III.—With respect to the sinking of the U.S.S. Indianapolis (CA-35) on July 30, 1945, and the subsequent court-martial conviction of the ship's commanding officer, Captain Charles Butler McVay, III, arising from that sinking, it is the sense of Congress, based on the review of evidence by the Senate and the House of Representatives—

(1) that, in light of the remission by the Secretary of the Navy of the sentence of the court-martial and the restoration of Captain McVay to active duty by the Chief of Naval Operations, Fleet Admiral Chester Nimitz, the American people should now recognize Captain McVay's lack of culpability for the tragic loss of the U.S.S. Indianapolis and the lives of the men who died as a result of the sinking of that vessel; and

(2) that, in light of the fact that certain exculpatory information was not available to the court-martial board and that Captain McVay's conviction resulted therefrom, Captain McVay's military record should now reflect that he is exonerated for the loss of the U.S.S. Indianapolis and so many of her crew.

(c) UNIT CITATION FOR FINAL CREW OF U.S.S. INDIANAPOLIS.—The Secretary of the Navy should award a Navy Unit Commendation to the U.S.S. Indianapolis (CA-35) and her final crew.

SEC. 546. POSTHUMOUS ADVANCEMENT ON RETIRED LIST OF REAR ADMIRAL HUSBAND E. KIMMEL AND MAJOR GENERAL WALTER C. SHORT, SENIOR OFFICERS IN COMMAND IN HAWAII ON DECEMBER 7, 1941.

(a) FINDINGS.—Congress makes the following findings:

(1) The late Rear Admiral Husband E. Kimmel, while serving in the temporary grade of admiral, was the Commander in Chief of the United States Fleet and the Commander in

PUBLIC LAW 106-398—APPENDIX

Chief, United States Pacific Fleet, at the time of the Japanese attack on Pearl Harbor, Hawaii, on December 7, 1941, with an excellent and unassailable record throughout his career in the United States Navy before that date.

(2) The late Major General Walter C. Short, while serving in the temporary grade of lieutenant general, was the Commander of the United States Army Hawaiian Department, at the time of the Japanese attack on Pearl Harbor, Hawaii, on December 7, 1941, with an excellent and unassailable record throughout his career in the United States Army before that date.

(3) Numerous investigations following the attack on Pearl Harbor have documented that Admiral Kimmel and Lieutenant General Short were not provided necessary and critical intelligence that was available, that foretold of war with Japan, that warned of imminent attack, and that would have alerted them to prepare for the attack, including such essential communications as the Japanese Pearl Harbor Bomb Plot message of September 24, 1941, and the message sent from the Imperial Japanese Foreign Ministry to the Japanese Ambassador in the United States from December 6 to 7, 1941, known as the Fourteen-Part Message.

(4) On December 16, 1941, Admiral Kimmel and Lieutenant General Short were relieved of their commands and returned to their permanent grades of rear admiral and major general, respectively.

(5) Admiral William Harrison Standley, who served as a member of the investigating commission known as the Roberts Commission that accused Admiral Kimmel and Lieutenant General Short of “dereliction of duty” only six weeks after the attack on Pearl Harbor, later disavowed the report, maintaining that “these two officers were martyred” and “if they had been brought to trial, both would have been cleared of the charge”.

(6) On October 19, 1944, a Naval Court of Inquiry—

(A) exonerated Admiral Kimmel on the grounds that his military decisions and the disposition of his forces at the time of the December 7, 1941, attack on Pearl Harbor were proper “by virtue of the information that Admiral Kimmel had at hand which indicated neither the probability nor the imminence of an air attack on Pearl Harbor”;

(B) criticized the higher command for not sharing with Admiral Kimmel “during the very critical period of November 26 to December 7, 1941, important information . . . regarding the Japanese situation”; and

(C) concluded that the Japanese attack and its outcome was attributable to no serious fault on the part of anyone in the naval service.

(7) On June 15, 1944, an investigation conducted by Admiral T. C. Hart at the direction of the Secretary of the Navy produced evidence, subsequently confirmed, that essential intelligence concerning Japanese intentions and war plans was available in Washington but was not shared with Admiral Kimmel.

(8) On October 20, 1944, the Army Pearl Harbor Board of Investigation determined that—

(A) Lieutenant General Short had not been kept “fully advised of the growing tenseness of the Japanese situation which indicated an increasing necessity for better preparation for war”;

(B) detailed information and intelligence about Japanese intentions and war plans were available in “abundance” but were not shared with the Lieutenant General Short’s Hawaii command; and

(C) Lieutenant General Short was not provided “on the evening of December 6th and the early morning of

PUBLIC LAW 106-398—APPENDIX

December 7th, the critical information indicating an almost immediate break with Japan, though there was ample time to have accomplished this”.

(9) The reports by both the Naval Court of Inquiry and the Army Pearl Harbor Board of Investigation were kept secret, and Rear Admiral Kimmel and Major General Short were denied their requests to defend themselves through trial by court-martial.

(10) The joint committee of Congress that was established to investigate the conduct of Admiral Kimmel and Lieutenant General Short completed, on May 31, 1946, a 1,075-page report which included the conclusions of the committee that the two officers had not been guilty of dereliction of duty.

(11) On April 27, 1954, the Chief of Naval Personnel, Admiral J. L. Holloway, Jr., recommended that Rear Admiral Kimmel be advanced in rank in accordance with the provisions of the Officer Personnel Act of 1947.

(12) On November 13, 1991, a majority of the members of the Board for the Correction of Military Records of the Department of the Army found that Major General Short “was unjustly held responsible for the Pearl Harbor disaster” and that “it would be equitable and just” to advance him to the rank of lieutenant general on the retired list.

(13) In October 1994, the Chief of Naval Operations, Admiral Carlisle Trost, withdrew his 1988 recommendation against the advancement of Rear Admiral Kimmel and recommended that his case be reopened.

(14) Although the Dorn Report, a report on the results of a Department of Defense study that was issued on December 15, 1995, did not provide support for an advancement of Rear Admiral Kimmel or Major General Short in grade, it did set forth as a conclusion of the study that “responsibility for the Pearl Harbor disaster should not fall solely on the shoulders of Admiral Kimmel and Lieutenant General Short, it should be broadly shared”.

(15) The Dorn Report found—

(A) that “Army and Navy officials in Washington were privy to intercepted Japanese diplomatic communications . . . which provided crucial confirmation of the imminence of war”;

(B) that “the evidence of the handling of these messages in Washington reveals some ineptitude, some unwarranted assumptions and misestimations, limited coordination, ambiguous language, and lack of clarification and followup at higher levels”; and

(C) that “together, these characteristics resulted in failure . . . to appreciate fully and to convey to the commanders in Hawaii the sense of focus and urgency that these intercepts should have engendered”.

(16) On July 21, 1997, Vice Admiral David C. Richardson (United States Navy, retired) responded to the Dorn Report with his own study which confirmed findings of the Naval Court of Inquiry and the Army Pearl Harbor Board of Investigation and established, among other facts, that the war effort in 1941 was undermined by a restrictive intelligence distribution policy, and the degree to which the commanders of the United States forces in Hawaii were not alerted about the impending attack on Hawaii was directly attributable to the withholding of intelligence from Admiral Kimmel and Lieutenant General Short.

(17) The Officer Personnel Act of 1947, in establishing a promotion system for the Navy and the Army, provided a legal basis for the President to honor any officer of the Armed Forces of the United States who served his country as a senior commander during World War II with a placement

PUBLIC LAW 106-398—APPENDIX

of that officer, with the advice and consent of the Senate, on the retired list with the highest grade held while on the active duty list.

(18) Rear Admiral Kimmel and Major General Short are the only two officers eligible for advancement under the Officer Personnel Act of 1947 as senior World War II commanders who were excluded from the list of retired officers presented for advancement on the retired lists to their highest wartime grades under that Act.

(19) This singular exclusion of those two officers from advancement on the retired list serves only to perpetuate the myth that the senior commanders in Hawaii were derelict in their duty and responsible for the success of the attack on Pearl Harbor, a distinct and unacceptable expression of dishonor toward two of the finest officers who have served in the Armed Forces of the United States.

(20) Major General Walter Short died on September 23, 1949, and Rear Admiral Husband Kimmel died on May 14, 1968, without the honor of having been returned to their wartime grades as were their fellow commanders of World War II.

(21) The Veterans of Foreign Wars, the Pearl Harbor Survivors Association, the Admiral Nimitz Foundation, the Naval Academy Alumni Association, the Retired Officers Association, and the Pearl Harbor Commemorative Committee, and other associations and numerous retired military officers have called for the rehabilitation of the reputations and honor of Admiral Kimmel and Lieutenant General Short through their posthumous advancement on the retired lists to their highest wartime grades.

(b) ADVANCEMENT OF REAR ADMIRAL KIMMEL AND MAJOR GENERAL SHORT ON RETIRED LISTS.—(1) The President is requested—

(A) to advance the late Rear Admiral Husband E. Kimmel, United States Navy (retired), to the grade of admiral on the retired list of the Navy; and

(B) to advance the late Major General Walter C. Short, United States Army (retired), to the grade of lieutenant general on the retired list of the Army.

(2) Any advancement in grade on a retired list requested under paragraph (1) shall not increase or change the compensation or benefits from the United States to which any person is now or may in the future be entitled based upon the military service of the officer advanced.

(c) SENSE OF CONGRESS REGARDING THE PROFESSIONAL PERFORMANCE OF ADMIRAL KIMMEL AND LIEUTENANT GENERAL SHORT.—It is the sense of Congress—

(1) that the late Rear Admiral Husband E. Kimmel performed his duties as Commander in Chief, United States Pacific Fleet, competently and professionally and, therefore, that the losses incurred by the United States in the attacks on the naval base at Pearl Harbor, Hawaii, and other targets on the island of Oahu, Hawaii, on December 7, 1941, were not a result of dereliction in the performance of those duties by then Admiral Kimmel; and

(2) that the late Major General Walter C. Short performed his duties as Commanding General, Hawaiian Department, competently and professionally and, therefore, that the losses incurred by the United States in the attacks on Hickam Army Air Field and Schofield Barracks, Hawaii, and other targets on the island of Oahu, Hawaii, on December 7, 1941, were not a result of dereliction in the performance of those duties by then Lieutenant General Short.

SEC. 547. COMMENDATION OF CITIZENS OF REMY, FRANCE, FOR WORLD WAR II ACTIONS.

(a) **FINDINGS.**—The Congress finds the following:

(1) On August 2, 1944, a squadron of P-51s from the United States 364th Fighter Group strafed a German munitions train in Remy, France.

(2) The resulting explosion killed Lieutenant Houston Braly, one of the attacking pilots, and destroyed much of the village of Remy, including seven stained glass windows in the 13th century church.

(3) Despite threats of reprisals from the occupying German authorities, the citizens of Remy recovered Lieutenant Braly's body from the wreckage, buried his body with dignity and honor in the church's cemetery, and decorated the grave site daily with fresh flowers.

(4) On Armistice Day, 1995, the village of Remy renamed the crossroads near the site of Lieutenant Braly's death in his honor.

(5) The surviving members of the 364th Fighter Group desire to express their gratitude to the brave citizens of Remy.

(6) To express their gratitude, the surviving members of the 364th Fighter Group have organized a nonprofit corporation to raise funds, through its project "Windows for Remy", to restore the church's stained glass windows.

(b) **COMMENDATION AND RECOGNITION.**—The Congress commends the bravery and honor of the citizens of Remy, France, for their actions with respect to the American fighter pilot Lieutenant Houston Braly during and after August 1944, and recognizes the efforts of the surviving members of the United States 364th Fighter Group to raise funds to restore the stained glass windows of Remy's 13th century church.

Pitsenbarger of Piqua, Ohio, for the acts of valor referred to in subsection (b).

SEC. 555. REQUIREMENT FOR VERBATIM RECORD IN CERTAIN SPECIAL COURT-MARTIAL CASES.

(a) WHEN REQUIRED.—Subsection (c)(1)(B) of section 854 of title 10, United States Code (article 54 of the Uniform Code of Military Justice), is amended by inserting after “bad-conduct discharge” the following: “, confinement for more than six months, or forfeiture of pay for more than six months”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect as of April 1, 2000, and shall apply with respect to charges referred on or after that date to trial by special court-martial.

SEC. 556. COMMEMORATION OF THE 50TH ANNIVERSARY OF THE UNIFORM CODE OF MILITARY JUSTICE.

(a) FINDINGS.—Congress makes the following findings:

(1) The American military justice system predates the United States itself, having had a continuous existence since the enactment of the first American Articles of War by the Continental Congress in 1775.

(2) Pursuant to article I of the Constitution, which explicitly empowers Congress “To make Rules for the Government and Regulation of the land and naval Forces”, Congress enacted the Articles of War and an Act to Govern the Navy, which were revised on several occasions between the ratification of the Constitution and the end of World War II.

(3) Dissatisfaction with the administration of military justice during World War I and World War II (including dissatisfaction arising from separate systems of justice for the Army and for the Navy and Marine Corps) led both to signifi-

PUBLIC LAW 106-398—APPENDIX

cant statutory reforms in the Articles of War and to the convening of a committee, under Department of Defense auspices, to draft a single code of military justice applicable uniformly to all of the Armed Forces.

(4) The committee, chaired by Professor Edmund M. Morgan of Harvard Law School, made recommendations that formed the basis of bills introduced in Congress to establish such a uniform code of military justice.

(5) After lengthy hearings and debate on the congressional proposals, the Uniform Code of Military Justice was enacted into law on May 5, 1950, when President Harry S Truman signed the legislation.

(6) President Truman then issued a revised Manual for Courts-Martial implementing the new code, and the code became effective on May 31, 1951.

(7) One of the greatest innovations of the Uniform Code of Military Justice (now codified as chapter 47 of title 10, United States Code) was the establishment of a civilian court of appeals within the military justice system. That court, the United States Court of Military Appeals (now the United States Court of Appeals for the Armed Forces), held its first session on July 25, 1951.

(8) Congress enacted major revisions of the Uniform Code of Military Justice in 1968 and 1983 and, in addition, has amended the code from time to time over the years as practice under the code indicated a need for updating the substance or procedure of the law of military justice.

(9) The evolution of the system of military justice under the Uniform Code of Military Justice may be traced in the decisions of the Courts of Criminal Appeals of each of the Armed Forces and the decisions of the United States Court of Appeals for the Armed Forces. These courts have produced a unique body of jurisprudence upon which commanders and judge advocates rely in the performance of their duties.

(10) It is altogether fitting that the 50th anniversary of the Uniform Code of Military Justice be duly commemorated.

(b) COMMEMORATION.—The Congress—

(1) requests the President to issue a proclamation commemorating the 50th anniversary of the Uniform Code of Military Justice; and

(2) calls upon the Department of Defense, the Armed Forces, and the United States Court of Appeals for the Armed Forces and interested organizations and members of the bar and the public to commemorate the occasion of that anniversary with ceremonies and activities befitting its importance.

“(ii) With respect to patients to whom the practitioner will provide such drugs or combinations of drugs, the practitioner has the capacity to refer the patients for appropriate counseling and other appropriate ancillary services.

“(iii) In any case in which the practitioner is not in a group practice, the total number of such patients of the practitioner at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number.

“(iv) In any case in which the practitioner is in a group practice, the total number of such patients of the group practice at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number, and the Secretary for such purposes may by regulation establish different categories on the basis of the number of practitioners in a group practice and establish for the various categories different numerical limitations on the number of such patients that the group practice may have.

“(C) For purposes of subparagraph (A), the conditions specified in this subparagraph with respect to narcotic drugs in schedule III, IV, or V or combinations of such drugs are as follows:

“(i) The drugs or combinations of drugs have, under the Federal Food, Drug, and Cosmetic Act or section 351 of the Public Health Service Act, been approved for use in maintenance or detoxification treatment.

“(ii) The drugs or combinations of drugs have not been the subject of an adverse determination. For purposes of this clause, an adverse determination is a determination published in the Federal Register and made by the Secretary, after consultation with the Attorney General, that the use of the drugs or combinations of drugs for maintenance or detoxification treatment requires additional standards respecting the qualifications of practitioners to provide such treatment, or requires standards respecting the quantities of the drugs that may be provided for unsupervised use.

“(D)(i) A waiver under subparagraph (A) with respect to a practitioner is not in effect unless (in addition to conditions under subparagraphs (B) and (C)) the following conditions are met:

“(I) The notification under subparagraph (B) is in writing and states the name of the practitioner.

“(II) The notification identifies the registration issued for the practitioner pursuant to subsection (f).

“(III) If the practitioner is a member of a group practice, the notification states the names of the other practitioners in the practice and identifies the registrations issued for the other practitioners pursuant to subsection (f).

PUBLIC LAW 106-398—APPENDIX

“(ii) Upon receiving a notification under subparagraph (B), the Attorney General shall assign the practitioner involved an identification number under this paragraph for inclusion with the registration issued for the practitioner pursuant to subsection (f). The identification number so assigned shall be appropriate to preserve the confidentiality of patients for whom the practitioner has dispensed narcotic drugs under a waiver under subparagraph (A).

“(iii) Not later than 45 days after the date on which the Secretary receives a notification under subparagraph (B), the Secretary shall make a determination of whether the practitioner involved meets all requirements for a waiver under subparagraph (B). If the Secretary fails to make such determination by the end of such 45-day period, the Attorney General shall assign the physician an identification number described in clause (ii) at the end of such period.

“(E)(i) If a practitioner is not registered under paragraph (1) and, in violation of the conditions specified in subparagraphs (B) through (D), dispenses narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, the Attorney General may, for purposes of section 304(a)(4), consider the practitioner to have committed an act that renders the registration of the practitioner pursuant to subsection (f) to be inconsistent with the public interest.

“(ii)(I) Upon the expiration of 45 days from the date on which the Secretary receives a notification under subparagraph (B), a practitioner who in good faith submits a notification under subparagraph (B) and reasonably believes that the conditions specified in subparagraphs (B) through (D) have been met shall, in dispensing narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, be considered to have a waiver under subparagraph (A) until notified otherwise by the Secretary, except that such a practitioner may commence to prescribe or dispense such narcotic drugs for such purposes prior to the expiration of such 45-day period if it facilitates the treatment of an individual patient and both the Secretary and the Attorney General are notified by the practitioner of the intent to commence prescribing or dispensing such narcotic drugs.

“(II) For purposes of subclause (I), the publication in the Federal Register of an adverse determination by the Secretary pursuant to subparagraph (C)(ii) shall (with respect to the narcotic drug or combination involved) be considered to be a notification provided by the Secretary to practitioners, effective upon the expiration of the 30-day period beginning on the date on which the adverse determination is so published.

“(F)(i) With respect to the dispensing of narcotic drugs in schedule III, IV, or V or combinations of such drugs to patients for maintenance or detoxification treatment, a practitioner may, in his or her discretion, dispense such drugs or combinations for such treatment under a registration under paragraph (1) or a waiver under subparagraph (A) (subject to meeting the applicable conditions).

“(ii) This paragraph may not be construed as having any legal effect on the conditions for obtaining a registration under paragraph (1), including with respect to the number of patients who may be served under such a registration.

“(G) For purposes of this paragraph:

“(i) The term ‘group practice’ has the meaning given such term in section 1877(h)(4) of the Social Security Act.

“(ii) The term ‘qualifying physician’ means a physician who is licensed under State law and who meets one or more of the following conditions:

“(V) The physician has participated as an investigator in one or more clinical trials leading to the approval of a narcotic drug in schedule III, IV, or V for maintenance or detoxification treatment, as demonstrated by a statement submitted to the Secretary by the sponsor of such approved drug.

“(VI) The physician has such other training or experience as the State medical licensing board (of the State in which the physician will provide maintenance or detoxification treatment) considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients.

“(VII) The physician has such other training or experience as the Secretary considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients. Any criteria of the Secretary under this subclause shall be established by regulation. Any such criteria are effective only for 3 years after the date on which the criteria are promulgated, but may be extended for such additional discrete 3-year periods as the Secretary considers appropriate for purposes of this subclause. Such an extension of criteria may only be effectuated through a statement published in the Federal Register by the Secretary during the 30-day period preceding the end of the 3-year period involved.

“(H)(i) In consultation with the Administrator of the Drug Enforcement Administration, the Administrator of the Substance Abuse and Mental Health Services Administration, the Director of the National Institute on Drug Abuse, and the Commissioner of Food and Drugs, the Secretary shall issue regulations (through notice and comment rulemaking) or issue practice guidelines to address the following:

“(I) Approval of additional credentialing bodies and the responsibilities of additional credentialing bodies.

“(II) Additional exemptions from the requirements of this paragraph and any regulations under this paragraph.

Nothing in such regulations or practice guidelines may authorize any Federal official or employee to exercise supervision or control over the practice of medicine or the manner in which medical services are provided.

“(ii) Not later than 120 days after the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, the Secretary shall issue a treatment improvement protocol containing best practice guidelines for the treatment and maintenance of opiate-dependent patients. “(I) During the 3-year period beginning on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, a State may not preclude a practitioner from dispensing or prescribing drugs in schedule III, IV, or V or combinations of such drugs, to patients for maintenance or detoxification treatment in accordance with this paragraph unless, before the expiration of that 3-year period, the State enacts a law prohibiting a practitioner from dispensing such drugs or combinations of drug.

“(J)(i) This paragraph takes effect on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, and remains in effect thereafter except as provided in clause (iii) (relating to a decision by the Secretary or the Attorney General that this paragraph should not remain in effect).

“(ii) For purposes relating to clause (iii), the Secretary and the Attorney General may, during the 3-year period beginning on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, make determinations in accordance with the following:

“(I) The Secretary may make a determination of whether treatments provided under waivers under subparagraph (A) have been effective forms of maintenance treatment and detoxification treatment in clinical settings; may make a determination of whether such waivers have significantly increased (relative to the beginning of such period) the availability of maintenance treatment and detoxification treatment; and may make a determination of whether such waivers have adverse consequences for the public health.

“(II) The Attorney General may make a determination of the extent to which there have been violations of the numerical limitations established under subparagraph (B) for the number of individuals to whom a practitioner may provide treatment; may make a determination of whether waivers under subparagraph (A) have increased (relative to the beginning of such period) the extent to which narcotic drugs in schedule III, IV, or V or combinations of such drugs are being dispensed or possessed in violation of this Act; and may make a determination of whether such waivers have adverse consequences for the public health.

“(iii) If, before the expiration of the period specified in clause (ii), the Secretary or the Attorney General publishes in the Federal Register a decision, made on the basis of determinations under such clause, that this paragraph should not remain in effect, this paragraph ceases to be in effect 60 days after the date on which the decision is so published. The Secretary shall in making any such decision consult with the Attorney General, and shall in publishing the decision in the Federal Register include any comments received from the Attorney General for inclusion in the publication. The Attorney General shall in making any such decision consult with the Secretary, and shall in publishing the decision in the Federal Register include any comments received from the Secretary for inclusion in the publication.”.

SEC. 1236. SENSE OF CONGRESS REGARDING THE USE OF CHILDREN AS SOLDIERS.

(a) FINDINGS.—Congress makes the following findings:

(1) In the year 2000, approximately 300,000 individuals under the age of 18 are participating in armed conflict in more than 30 countries worldwide.

(2) Many children participating in armed conflict in various countries around the world are forcibly conscripted through kidnapping or coercion, while others join military units due to economic necessity, to avenge the loss of a family member, or for their own personal safety.

(3) Many military commanders frequently force child soldiers to commit gruesome acts of ritual killings or torture against their enemies, including against other children.

(4) Many military commanders separate children from their families in order to foster dependence on military units and leaders, leaving children vulnerable to manipulation, deep traumatization, and in need of psychological counseling and rehabilitation.

PUBLIC LAW 106-398—APPENDIX

(5) Child soldiers are exposed to hazardous conditions and risk physical injuries, sexually transmitted diseases, malnutrition, deformed backs and shoulders from carrying overweight loads, and respiratory and skin infections.

(6) Many young female soldiers face the additional psychological and physical horrors of rape and sexual abuse, being enslaved for sexual purposes by militia commanders, and forced to endure severe social stigma should they return home.

(7) Children in northern Uganda continue to be kidnapped by the Lords Resistance Army (LRA), which is supported and funded by the Government of Sudan and which has committed and continues to commit gross human rights violations in Uganda.

(8) Children in Sri Lanka have been forcibly recruited by the opposition Tamil Tigers movement and forced to kill or be killed in the armed conflict in that country.

(9) An estimated 7,000 child soldiers have been involved in the conflict in Sierra Leone, some as young as age 10, with many being forced to commit extrajudicial executions, torture, rape, and amputations for the rebel Revolutionary United Front.

(10) On January 21, 2000, in Geneva, a United Nations Working Group, including representatives from more than 80 governments including the United States, reached consensus on an international agreement, referred to in this case as an "optional protocol", on the use of child soldiers.

(11) This optional protocol, upon entry into force, will—

(A) raise the international minimum age for conscription and will require governments to take all feasible measures to ensure that members of their armed forces under age 18 do not participate directly in combat;

(B) prohibit the recruitment and use in armed conflict of persons under the age of 18 by nongovernmental armed forces;

(C) encourage governments to raise the minimum legal age for voluntary recruits above the current standard of 15; and

(D) commit governments to support the demobilization and rehabilitation of child soldiers and, when possible, to allocate resources to this purpose.

(12) On October 29, 1998, United Nations Secretary General Kofi Annan set minimum age requirements for United Nations peacekeeping personnel that are made available by member nations of the United Nations.

(13) The United Nations Under-Secretary General for Peace-keeping, Bernard Miyet, announced in the Fourth Committee of the General Assembly that contributing governments of member nations were asked not to send civilian police and military observers under the age of 25 and that troops in national contingents should preferably be at least 21 years of age but in no case should they be younger than 18 years of age.

(14) On August 25, 1999, the United Nations Security Council unanimously passed Resolution 1261 (1999) condemning the use of children in armed conflicts.

(15) In addressing the Security Council on August 26, 1999, the Special Representative of the Secretary General for Children and Armed Conflict, Olara Otunnu, urged the adoption of a global three-pronged approach to combatting the use of children in armed conflict that would—

(A) first, raise the age limit for recruitment and participation in armed conflict from the present age of 15 to the age of 18;

(B) second, increase international pressure on armed groups which currently abuse children; and

PUBLIC LAW 106-398—APPENDIX

(C) third, address the political, social, and economic factors that create an environment in which children are induced by appeal of ideology or by socio-economic collapse to become child soldiers.

(16) The United States delegation to the United Nations working group relating to child soldiers, which included representatives from the Department of Defense, supported the Geneva agreement on the optional protocol.

(17) On May 25, 2000, the United Nations General Assembly unanimously adopted the optional protocol on the use of child soldiers.

(18) The optional protocol was opened for signature on June 5, 2000.

(19) The President signed the optional protocol on behalf of the United States on July 5, 2000.

(b) CONGRESSIONAL STATEMENTS ON CHILD SOLDIERS.—Congress joins the international community in—

(1) condemning the use of children as soldiers by governmental and nongovernmental armed forces worldwide; and

(2) welcoming the optional protocol on the use of child soldiers adopted by the United Nations General Assembly on May 25, 2000, as a critical first step in ending the use of children as soldiers.

(c) SENSE OF CONGRESS ON FURTHER ACTIONS.—It is the sense of Congress that—

(1) it is essential that the President consult closely with the Senate with the objective of building support for ratification by the United States of the optional protocol and that the Senate move forward as expeditiously as possible;

(2) the United States should provide assistance, through a new fund to be established by law, for the rehabilitation and reintegration into their respective civilian societies of child soldiers of other nations; and

(3) the President, acting through the Secretaries of State and Defense and other appropriate officials, should undertake all possible efforts to persuade and encourage other governments to ratify and endorse the optional protocol on the use of child soldiers.

(3) The United States submarines USS Thresher and USS Scorpion, with their officers and crews, were also lost at sea in tragic accidents, in 1963 and 1968, respectively.

SEC. 3601. SHORT TITLE.

This title may be cited as the “Energy Employees Occupational Illness Compensation Program Act of 2000”.

SEC. 3602. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—The Congress finds the following:

(1) Since World War II, Federal nuclear activities have been explicitly recognized under Federal law as activities that are ultra-hazardous. Nuclear weapons production and testing have involved unique dangers, including potential catastrophic nuclear accidents that private insurance carriers have not covered and recurring exposures to radioactive substances and beryllium that, even in small amounts, can cause medical harm.

(2) Since the inception of the nuclear weapons program and for several decades afterwards, a large number of nuclear weapons workers at sites of the Department of Energy and

PUBLIC LAW 106-398—APPENDIX

at sites of vendors who supplied the Cold War effort were put at risk without their knowledge and consent for reasons that, documents reveal, were driven by fears of adverse publicity, liability, and employee demands for hazardous duty pay.

(3) Many previously secret records have documented unmonitored exposures to radiation and beryllium and continuing problems at these sites across the Nation, at which the Department of Energy and its predecessor agencies have been, since World War II, self-regulating with respect to nuclear safety and occupational safety and health. No other hazardous Federal activity has been permitted to be carried out under such sweeping powers of self-regulation.

(4) The policy of the Department of Energy has been to litigate occupational illness claims, which has deterred workers from filing workers' compensation claims and has imposed major financial burdens for such employees who have sought compensation. Contractors of the Department have been held harmless and the employees have been denied workers' compensation coverage for occupational disease.

(5) Over the past 20 years, more than two dozen scientific findings have emerged that indicate that certain of such employees are experiencing increased risks of dying from cancer and non-malignant diseases. Several of these studies have also established a correlation between excess diseases and exposure to radiation and beryllium.

(6) While linking exposure to occupational hazards with the development of occupational disease is sometimes difficult, scientific evidence supports the conclusion that occupational exposure to dust particles or vapor of beryllium can cause beryllium sensitivity and chronic beryllium disease. Furthermore, studies indicate that 98 percent of radiation-induced cancers within the nuclear weapons complex have occurred at dose levels below existing maximum safe thresholds.

(7) Existing information indicates that State workers' compensation programs do not provide a uniform means of ensuring adequate compensation for the types of occupational illnesses and diseases that relate to the employees at those sites.

(8) To ensure fairness and equity, the civilian men and women who, over the past 50 years, have performed duties uniquely related to the nuclear weapons production and testing programs of the Department of Energy and its predecessor agencies should have efficient, uniform, and adequate compensation for beryllium-related health conditions and radiation-related health conditions.

(9) On April 12, 2000, the Secretary of Energy announced that the Administration intended to seek compensation for individuals with a broad range of work-related illnesses throughout the Department of Energy's nuclear weapons complex.

(10) However, as of October 2, 2000, the Administration has failed to provide Congress with the necessary legislative and budget proposals to enact the promised compensation program.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) a program should be established to provide compensation to covered employees;

(2) a fund for payment of such compensation should be established on the books of the Treasury;

(3) payments from that fund should be made only after—

(A) the identification of employees of the Department of Energy (including its predecessor agencies), and of contractors of the Department, who may be members of the group of covered employees;

PUBLIC LAW 106-398—APPENDIX

(B) the establishment of a process to receive and administer claims for compensation for disability or death of covered employees;

(C) the submittal by the President of a legislative proposal for compensation of such employees that includes the estimated annual budget resources for that compensation; and

(D) consideration by the Congress of the legislative proposal submitted by the President; and

(4) payments from that fund should commence not later than fiscal year 2002.

(4) Whether to expand the class of individuals who are members of the Special Exposure Cohort (as defined in section 3621(14)).

(b) ASSESSMENT OF POTENTIAL COVERED EMPLOYEES AND REQUIRED AMOUNTS.—The President shall include with the proposal for legislation under subsection (a) the following:

(1) An estimate of the number of covered employees that the President determines were exposed in the performance of duty.

(2) The Secretary of Health and Human Services and the Secretary of Energy shall each make available to researchers and the general public information on the assumptions, methodology, and data used in establishing radiation doses under subsection (d). The actions taken under this paragraph shall be consistent with the protection of private medical records.

SEC. 3624. ADVISORY BOARD ON RADIATION AND WORKER HEALTH.

(a) ESTABLISHMENT.—(1) Not later than 120 days after the date of the enactment of this Act, the President shall establish and appoint an Advisory Board on Radiation and Worker Health (in this section referred to as the “Board”).

(3) The President shall designate a Chair for the Board from among its members.

(b) DUTIES.—The Board shall advise the President on—

tunnels at a Department of Energy facility located in Nevada or Alaska for tests or experiments related to an atomic weapon.

(d) **COVERED EMPLOYEE WITH CHRONIC SILICOSIS.**—For purposes of this title, the term “covered employee with chronic silicosis” means a Department of Energy employee, or a Department of Energy contractor employee, with chronic silicosis who was exposed to silica in the performance of duty as determined under subsection (c).

(e) **CHRONIC SILICOSIS.**—For purposes of this title, the term “chronic silicosis” means a nonmalignant lung disease if—

(1) the initial occupational exposure to silica dust preceded the onset of silicosis by at least 10 years; and

(2) a written diagnosis of silicosis is made by a medical doctor and is accompanied by—

(A) a chest radiograph, interpreted by an individual certified by the National Institute for Occupational Safety and Health as a B reader, classifying the existence of pneumoconioses of category 1/1 or higher;

40 USC 1101
note.

(a) FINDINGS.—Congress finds that—

(1) during the second half of the twentieth century, Senator Daniel Patrick Moynihan promoted the importance of architecture and urban planning in the Nation’s Capital, particularly with respect to the portion of Pennsylvania Avenue between the White House and the United States Capitol (referred to in this subsection as the “Avenue”);

(2) Senator Moynihan has stressed the unique significance of the Avenue as conceived by Pierre Charles L’Enfant to be the “grand axis” of the Nation’s Capital as well as a symbolic representation of the separate yet unified branches of the United States Government;

(3) through his service to the Ad Hoc Committee on Federal Office Space (1961–1962), as a member of the President’s Council on Pennsylvania Avenue (1962–1964), and as vice-chairman of the President’s Temporary Commission on Pennsylvania Avenue (1965–1969), and in his various capacities in the executive and legislative branches, Senator Moynihan has consistently and creatively sought to fulfill President Kennedy’s recommendation of June 1, 1962, that the Avenue not become a “solid phalanx of public and private office buildings which close down completely at night and on weekends,” but that it be “lively, friendly, and inviting, as well as dignified and impressive”;

(4)(A) Senator Moynihan helped draft a Federal architectural policy, known as the “Guiding Principles for Federal Architecture,” that recommends a choice of designs that are “efficient and economical” and that provide “visual testimony to the dignity, enterprise, vigor, and stability” of the United States Government; and

(5) Senator Moynihan has encouraged—

(A) the construction of new buildings along the Avenue, such as the Ronald Reagan Building and International Trade Center; and

(B) the establishment of an academic institution along the Avenue, namely the Woodrow Wilson International Center for Scholars, a living memorial to President Wilson; and

(6) as Senator Moynihan’s service in the Senate concludes, it is appropriate to commemorate his legacy of public service and his commitment to thoughtful urban design in the Nation’s Capital.

(4) only very limited Federal resources have been made available for oilheat research, development, safety, training, and education efforts, to the detriment of both the oilheat industry and its 30,000,000 consumers; and

(5) the cooperative development, self-financing, and implementation of a coordinated national oilheat industry program of research and development, training, and consumer education is necessary and important for the welfare of the oilheat industry, the general economy of the United States, and the millions of Americans that rely on oilheat for commercial and residential space and hot water heating.

ENVIRONMENTAL ACTS

PUBLIC LAW 106-506—NOV. 13, 2000

Public Law 106-506
106th Congress

An Act

Nov. 13, 2000
[H.R. 3388]Lake Tahoe
Restoration Act.
Forests and
forest protection.
California.
Nevada.

To promote environmental restoration around the Lake Tahoe basin.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,***SECTION 1. SHORT TITLE.**

This Act may be cited as the “Lake Tahoe Restoration Act”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) Lake Tahoe, one of the largest, deepest, and clearest lakes in the world, has a cobalt blue color, a unique alpine setting, and remarkable water clarity, and is recognized nationally and worldwide as a natural resource of special significance;

(2) in addition to being a scenic and ecological treasure, Lake Tahoe is one of the outstanding recreational resources of the United States, offering skiing, water sports, biking, camping, and hiking to millions of visitors each year, and contributing significantly to the economies of California, Nevada, and the United States;

(3) the economy in the Lake Tahoe basin is dependent on the protection and restoration of the natural beauty and recreation opportunities in the area;

(4) Lake Tahoe is in the midst of an environmental crisis; the Lake’s water clarity has declined from a visibility level of 105 feet in 1967 to only 70 feet in 1999, and scientific estimates indicate that if the water quality at the Lake continues to degrade, Lake Tahoe will lose its famous clarity in only 30 years;

(5) sediment and algae-nourishing phosphorous and nitrogen continue to flow into the Lake from a variety of sources, including land erosion, fertilizers, air pollution, urban runoff, highway drainage, streamside erosion, land disturbance, and ground water flow;

(6) methyl tertiary butyl ether—

(A) has contaminated and closed more than one-third of the wells in South Tahoe; and

(B) is advancing on the Lake at a rate of approximately 9 feet per day;

(7) destruction of wetlands, wet meadows, and stream zone habitat has compromised the Lake’s ability to cleanse itself of pollutants;

(8) approximately 40 percent of the trees in the Lake Tahoe basin are either dead or dying, and the increased quantity of combustible forest fuels has significantly increased the risk of catastrophic forest fire in the Lake Tahoe basin;

(9) as the largest land manager in the Lake Tahoe basin, with 77 percent of the land, the Federal Government has a unique responsibility for restoring environmental health to Lake Tahoe;

(10) the Federal Government has a long history of environmental preservation at Lake Tahoe, including—

(A) congressional consent to the establishment of the Tahoe Regional Planning Agency in 1969 (Public Law 91–

PUBLIC LAW 106-506—NOV. 13, 2000

148; 83 Stat. 360) and in 1980 (Public Law 96-551; 94 Stat. 3233);

(B) the establishment of the Lake Tahoe Basin Management Unit in 1973; and

(C) the enactment of Public Law 96-586 (94 Stat. 3381) in 1980 to provide for the acquisition of environmentally sensitive land and erosion control grants;

(11) the President renewed the Federal Government's commitment to Lake Tahoe in 1997 at the Lake Tahoe Presidential Forum, when he committed to increased Federal resources for environmental restoration at Lake Tahoe and established the Federal Interagency Partnership and Federal Advisory Committee to consult on natural resources issues concerning the Lake Tahoe basin;

(12) the States of California and Nevada have contributed proportionally to the effort to protect and restore Lake Tahoe, including—

(A) expenditures—

(i) exceeding \$200,000,000 by the State of California since 1980 for land acquisition, erosion control, and other environmental projects in the Lake Tahoe basin; and

(ii) exceeding \$30,000,000 by the State of Nevada since 1980 for the purposes described in clause (i); and

(B) the approval of a bond issue by voters in the State of Nevada authorizing the expenditure by the State of an additional \$20,000,000; and

(13) significant additional investment from Federal, State, local, and private sources is needed to stop the damage to Lake Tahoe and its forests, and restore the Lake Tahoe basin to ecological health.

(b) PURPOSES.—The purposes of this Act are—

(1) to enable the Forest Service to plan and implement significant new environmental restoration activities and forest management activities to address the phenomena described in paragraphs (4) through (8) of subsection (a) in the Lake Tahoe basin;

(2) to ensure that Federal, State, local, regional, tribal, and private entities continue to work together to improve water quality and manage Federal land in the Lake Tahoe Basin Management Unit; and

(3) to provide funding to local governments for erosion and sediment control projects on non-Federal land if the projects benefit the Federal land.

SEC. 3. DEFINITIONS.

In this Act:

(1) ENVIRONMENTAL THRESHOLD CARRYING CAPACITY.—The term “environmental threshold carrying capacity” has the meaning given the term in article II of the Tahoe Regional Planning Compact set forth in the first section of Public Law 96-551 (94 Stat. 3235).

note.

SEC. 101. SHORT TITLE.

This title may be cited as the “African Growth and Opportunity Act”.

19 USC 3701.

SEC. 102. FINDINGS.

Congress finds that—

(1) it is in the mutual interest of the United States and the countries of sub-Saharan Africa to promote stable and sustainable economic growth and development in sub-Saharan Africa;

(2) the 48 countries of sub-Saharan Africa form a region richly endowed with both natural and human resources;

(3) sub-Saharan Africa represents a region of enormous economic potential and of enduring political significance to the United States;

(4) the region has experienced the strengthening of democracy as countries in sub-Saharan Africa have taken steps to encourage broader participation in the political process;

(5) certain countries in sub-Saharan Africa have increased their economic growth rates, taken significant steps towards liberalizing their economies, and made progress toward regional economic integration that can have positive benefits for the region;

(6) despite those gains, the per capita income in sub-Saharan Africa averages approximately \$500 annually;

(7) trade and investment, as the American experience has shown, can represent powerful tools both for economic development and for encouraging broader participation in a political process in which political freedom can flourish;

PUBLIC LAW 106-200—MAY 18, 2000

(8) increased trade and investment flows have the greatest impact in an economic environment in which trading partners eliminate barriers to trade and capital flows and encourage the development of a vibrant private sector that offers individual African citizens the freedom to expand their economic opportunities and provide for their families;

(9) offering the countries of sub-Saharan Africa enhanced trade preferences will encourage both higher levels of trade and direct investment in support of the positive economic and political developments under way throughout the region; and

(10) encouraging the reciprocal reduction of trade and investment barriers in Africa will enhance the benefits of trade and investment for the region as well as enhance commercial and political ties between the United States and sub-Saharan Africa.

If the Secretary's determination is affirmative, the President shall suspend the duty-free treatment provided for such article under this paragraph. If the inquiry is initiated at the request of an interested party, the Secretary shall make the determination within 60 days after the date of the request.

Subtitle C—Economic Development Related Issues

SEC. 121. SENSE OF THE CONGRESS REGARDING COMPREHENSIVE DEBT RELIEF FOR THE WORLD'S POOREST COUNTRIES.

19 USC 3731.

(a) FINDINGS.—Congress makes the following findings:

(1) The burden of external debt has become a major impediment to economic growth and poverty reduction in many of the world's poorest countries.

(2) Until recently, the United States Government and other official creditors sought to address this problem by rescheduling loans and in some cases providing limited debt reduction.

(3) Despite such efforts, the cumulative debt of many of the world's poorest countries continued to grow beyond their capacity to repay.

(4) In 1997, the Group of Seven, the World Bank, and the International Monetary Fund adopted the Heavily Indebted Poor Countries Initiative (HIPC), a commitment by the international community that all multilateral and bilateral creditors, acting in a coordinated and concerted fashion, would reduce poor country debt to a sustainable level.

(5) The HIPC Initiative is currently undergoing reforms to address concerns raised about country conditionality, the amount of debt forgiven, and the allocation of savings realized through the debt forgiveness program to ensure that the Initia-

PUBLIC LAW 106-200—MAY 18, 2000

tive accomplishes the goals of economic growth and poverty alleviation in the world's poorest countries.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) Congress and the President should work together, without undue delay and in concert with the international community, to make comprehensive debt relief available to the world's poorest countries in a manner that promotes economic growth and poverty alleviation;

(2) this program of bilateral and multilateral debt relief should be designed to strengthen and expand the private sector, encourage increased trade and investment, support the development of free markets, and promote broad-scale economic growth in beneficiary countries;

(3) this program of debt relief should also support the adoption of policies to alleviate poverty and to ensure that benefits are shared widely among the population, such as through initiatives to advance education, improve health, combat AIDS, and promote clean water and environmental protection;

(4) these debt relief agreements should be designed and implemented in a transparent manner and with the broad participation of the citizenry of the debtor country and should ensure that country circumstances are adequately taken into account;

(5) no country should receive the benefits of debt relief if that country does not cooperate with the United States on terrorism or narcotics enforcement, is a gross violator of the human rights of its citizens, or is engaged in conflict or spends excessively on its military; and

(6) in order to prevent adverse impact on a key industry in many developing countries, the International Monetary Fund must mobilize its own resources for providing debt relief to eligible countries without allowing gold to reach the open market, or otherwise adversely affecting the market price of gold.

19 USC 3732.

SEC. 122. EXECUTIVE BRANCH INITIATIVES.

(a) STATEMENT OF THE CONGRESS.—The Congress recognizes that the stated policy of the executive branch in 1997, the “Partnership for Growth and Opportunity in Africa” initiative, is a step toward the establishment of a comprehensive trade and development policy for sub-Saharan Africa. It is the sense of the Congress that this Partnership is a companion to the policy goals set forth in this title.

(b) TECHNICAL ASSISTANCE TO PROMOTE ECONOMIC REFORMS AND DEVELOPMENT.—In addition to continuing bilateral and multilateral economic and development assistance, the President shall target technical assistance toward—

(1) developing relationships between United States firms and firms in sub-Saharan Africa through a variety of business associations and networks;

(2) providing assistance to the governments of sub-Saharan African countries to—

(A) liberalize trade and promote exports;

(B) bring their legal regimes into compliance with the standards of the World Trade Organization in conjunction with membership in that Organization;

(C) make financial and fiscal reforms; and

(D) promote greater agribusiness linkages;

(3) addressing such critical agricultural policy issues as market liberalization, agricultural export development, and agribusiness investment in processing and transporting agricultural commodities;

(4) increasing the number of reverse trade missions to growth-oriented countries in sub-Saharan Africa;

PUBLIC LAW 106-200—MAY 18, 2000

- (5) increasing trade in services; and
- (6) encouraging greater sub-Saharan African participation in future negotiations in the World Trade Organization on services and making further commitments in their schedules to the General Agreement on Trade in Services in order to encourage the removal of tariff and nontariff barriers.

SEC. 123. OVERSEAS PRIVATE INVESTMENT CORPORATION INITIATIVES. 19 USC 3733.

(a) **INITIATION OF FUNDS.**—It is the sense of the Congress that the Overseas Private Investment Corporation should exercise the authorities it has to initiate an equity fund or equity funds in support of projects in the countries in sub-Saharan Africa, in addition to the existing equity fund for sub-Saharan Africa created by the Corporation.

(b) **STRUCTURE AND TYPES OF FUNDS.**—

(1) **STRUCTURE.**—Each fund initiated under subsection (a) should be structured as a partnership managed by professional private sector fund managers and monitored on a continuing basis by the Corporation.

(2) **CAPITALIZATION.**—Each fund should be capitalized with a combination of private equity capital, which is not guaranteed by the Corporation, and debt for which the Corporation provides guaranties.

(4) **EMPHASIS.**—The Corporation shall ensure that the funds are used to provide support in particular to women entrepreneurs and to innovative investments that expand opportunities for women and maximize employment opportunities for poor individuals.

(c) **OVERSEAS PRIVATE INVESTMENT CORPORATION.**—

(1) **INVESTMENT ADVISORY COUNCIL.**—Section 233 of the Foreign Assistance Act of 1961 is amended by adding at the end the following: 22 USC 2193.

“(e) **INVESTMENT ADVISORY COUNCIL.**—The Board shall take prompt measures to increase the loan, guarantee, and insurance programs, and financial commitments, of the Corporation in sub-Saharan Africa, including through the use of an investment advisory council to assist the Board in developing and implementing policies, programs, and financial instruments with respect to sub-Saharan Africa. In addition, the investment advisory council shall make recommendations to the Board on how the Corporation can facilitate greater support by the United States for trade and investment with and in sub-Saharan Africa. The investment advisory council shall terminate 4 years after the date of the enactment of this subsection.”.

SEC. 124. EXPORT-IMPORT BANK INITIATIVES.

19 USC 3734.

(a) **SENSE OF THE CONGRESS.**—It is the sense of the Congress that the Board of Directors of the Bank shall continue to take comprehensive measures, consistent with the credit standards otherwise required by law, to promote the expansion of the Bank's financial commitments in sub-Saharan Africa under the loan, guarantee and insurance programs of the Bank.

PUBLIC LAW 106-200—MAY 18, 2000

(b) **SUB-SAHARAN AFRICA ADVISORY COMMITTEE.**—The sub-Saharan Africa Advisory Committee (SAAC) is to be commended for aiding the Bank in advancing the economic partnership between the United States and the nations of sub-Saharan Africa by doubling the number of sub-Saharan African countries in which the Bank is open for traditional financing and by increasing by tenfold the Bank's support for sales to sub-Saharan Africa from fiscal year 1998 to fiscal year 1999. The Board of Directors of the Bank and its staff shall continue to review carefully the sub-Saharan Africa Advisory Committee recommendations on the development and implementation of new and innovative policies and programs designed to promote the Bank's expansion in sub-Saharan Africa.

19 USC 3735.

SEC. 125. EXPANSION OF THE UNITED STATES AND FOREIGN COMMERCIAL SERVICE IN SUB-SAHARAN AFRICA.

(a) **FINDINGS.**—The Congress makes the following findings:

(1) The United States and Foreign Commercial Service (hereafter in this section referred to as the “Commercial Service”) plays an important role in helping United States businesses identify export opportunities and develop reliable sources of information on commercial prospects in foreign countries.

(2) During the 1980s, the presence of the Commercial Service in sub-Saharan Africa consisted of 14 professionals providing services in eight countries. By early 1997, that presence had been reduced by half to seven professionals in only four countries.

(3) Since 1997, the Department of Commerce has slowly begun to increase the presence of the Commercial Service in sub-Saharan Africa, adding five full-time officers to established posts.

(4) Although the Commercial Service Officers in these countries have regional responsibilities, this kind of coverage does not adequately service the needs of United States businesses attempting to do business in sub-Saharan Africa.

(5) The Congress has, on several occasions, encouraged the Commercial Service to focus its resources and efforts in countries or regions in Europe or Asia to promote greater United States export activity in those markets, and similar encouragement should be provided for countries in sub-Saharan Africa as well.

(6) Because market information is not widely available in many sub-Saharan African countries, the presence of additional Commercial Service Officers and resources can play a significant role in assisting United States businesses in markets in those countries.

Deadline.

(b) **APPOINTMENTS.**—Subject to the availability of appropriations, by not later than December 31, 2001, the Secretary of Commerce, acting through the Assistant Secretary of Commerce and Director General of the United States and Foreign Commercial Service, shall take steps to ensure that—

(1) at least 20 full-time Commercial Service employees are stationed in sub-Saharan Africa; and

(2) full-time Commercial Service employees are stationed in not less than 10 different sub-Saharan African countries.

(c) **INITIATIVE FOR SUB-SAHARAN AFRICA.**—In order to encourage the export of United States goods and services to sub-Saharan African countries, the International Trade Administration shall make a special effort to—

(1) identify United States goods and services which are the best prospects for export by United States companies to sub-Saharan Africa;

(2) identify, where appropriate, tariff and nontariff barriers that are preventing or hindering sales of United States goods

and services to, or the operation of United States companies in, sub-Saharan Africa;

(3) hold discussions with appropriate authorities in sub-Saharan Africa on the matters described in paragraphs (1) and (2) with a view to securing increased market access for United States exporters of goods and services;

(4) identify current resource allocations and personnel levels in sub-Saharan Africa for the Commercial Service and consider plans for the deployment of additional resources or personnel to that region; and

(5) make available to the public, through printed and electronic means of communication, the information derived pursuant to paragraphs (1) through (4) for each of the 4 years after the date of the enactment of this Act.

SEC. 126. DONATION OF AIR TRAFFIC CONTROL EQUIPMENT TO ELIGIBLE SUB-SAHARAN AFRICAN COUNTRIES. 19 USC 3736.

It is the sense of the Congress that, to the extent appropriate, the United States Government should make every effort to donate to governments of sub-Saharan African countries determined to be eligible under section 104 air traffic control equipment that is no longer in use, including appropriate related reimbursable technical assistance.

SEC. 127. ADDITIONAL AUTHORITIES AND INCREASED FLEXIBILITY TO PROVIDE ASSISTANCE UNDER THE DEVELOPMENT FUND FOR AFRICA. 19 USC 3737.

(a) **USE OF SUSTAINABLE DEVELOPMENT ASSISTANCE TO SUPPORT FURTHER ECONOMIC GROWTH.**—It is the sense of the Congress that sustained economic growth in sub-Saharan Africa depends in large measure upon the development of a receptive environment for trade and investment, and that to achieve this objective the United States Agency for International Development should continue to support programs which help to create this environment. Investments in human resources, development, and implementation of free market policies, including policies to liberalize agricultural markets and improve food security, and the support for the rule of law and democratic governance should continue to be encouraged and enhanced on a bilateral and regional basis.

(b) **DECLARATIONS OF POLICY.**—The Congress makes the following declarations:

(1) The Development Fund for Africa established under chapter 10 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2293 et seq.) has been an effective tool in providing development assistance to sub-Saharan Africa since 1988.

(2) The Development Fund for Africa will complement the other provisions of this title and lay a foundation for increased trade and investment opportunities between the United States and sub-Saharan Africa.

(3) Assistance provided through the Development Fund for Africa will continue to support programs and activities that promote the long term economic development of sub-Saharan Africa, such as programs and activities relating to the following:

(A) Strengthening primary and vocational education systems, especially the acquisition of middle-level technical skills for operating modern private businesses and the introduction of college level business education, including the study of international business, finance, and stock exchanges.

(B) Strengthening health care systems.

(C) Supporting democratization, good governance and civil society and conflict resolution efforts.

(D) Increasing food security by promoting the expansion of agricultural and agriculture-based industrial

PUBLIC LAW 106-200—MAY 18, 2000

production and productivity and increasing real incomes for poor individuals.

(E) Promoting an enabling environment for private sector-led growth through sustained economic reform, privatization programs, and market-led economic activities.

(F) Promoting decentralization and local participation in the development process, especially linking the rural production sectors and the industrial and market centers throughout Africa.

(G) Increasing the technical and managerial capacity of sub-Saharan African individuals to manage the economy of sub-Saharan Africa.

(H) Ensuring sustainable economic growth through environmental protection.

(4) The African Development Foundation has a unique congressional mandate to empower the poor to participate fully in development and to increase opportunities for gainful employment, poverty alleviation, and more equitable income distribution in sub-Saharan Africa. The African Development Foundation has worked successfully to enhance the role of women as agents of change, strengthen the informal sector with an emphasis on supporting micro and small sized enterprises, indigenous technologies, and mobilizing local financing. The African Development Foundation should develop and implement strategies for promoting participation in the socioeconomic development process of grassroots and informal sector groups such as nongovernmental organizations, cooperatives, artisans, and traders into the programs and initiatives established under this title.

(c) ADDITIONAL AUTHORITIES.—

(1) IN GENERAL.—Section 496(h) of the Foreign Assistance Act of 1961 (22 U.S.C. 2293(h)) is amended—

(A) by redesignating paragraph (3) as paragraph (4); and

(B) by inserting after paragraph (2) the following:

“(3) DEMOCRATIZATION AND CONFLICT RESOLUTION CAPABILITIES.—Assistance under this section may also include program assistance—

“(A) to promote democratization, good governance, and strong civil societies in sub-Saharan Africa; and

“(B) to strengthen conflict resolution capabilities of governmental, intergovernmental, and nongovernmental entities in sub-Saharan Africa.”.

(2) CONFORMING AMENDMENT.—Section 496(h)(4) of such Act, as amended by paragraph (1), is further amended by striking “paragraphs (1) and (2)” in the first sentence and inserting “paragraphs (1), (2), and (3)”.

SEC. 128. ASSISTANCE FROM UNITED STATES PRIVATE SECTOR TO PREVENT AND REDUCE HIV/AIDS IN SUB-SAHARAN AFRICA.

It is the sense of the Congress that United States businesses should be encouraged to provide assistance to sub-Saharan African countries to prevent and reduce the incidence of HIV/AIDS in sub-Saharan Africa. In providing such assistance, United States businesses should be encouraged to consider the establishment of an HIV/AIDS Response Fund in order to provide for coordination among such businesses in the collection and distribution of the assistance to sub-Saharan African countries.

19 USC 3739.

SEC. 129. SENSE OF THE CONGRESS RELATING TO HIV/AIDS CRISIS IN SUB-SAHARAN AFRICA.

(a) FINDINGS.—The Congress finds the following:

PUBLIC LAW 106-200—MAY 18, 2000

(1) Sustained economic development in sub-Saharan Africa depends in large measure upon successful trade with and foreign assistance to the countries of sub-Saharan Africa.

(2) The HIV/AIDS crisis has reached epidemic proportions in sub-Saharan Africa, where more than 21,000,000 men, women, and children are infected with HIV.

(3) Eighty-three percent of the estimated 11,700,000 deaths from HIV/AIDS worldwide have been in sub-Saharan Africa.

(4) The HIV/AIDS crisis in sub-Saharan Africa is weakening the structure of families and societies.

(5)(A) The HIV/AIDS crisis threatens the future of the workforce in sub-Saharan Africa.

(B) Studies show that HIV/AIDS in sub-Saharan Africa most severely affects individuals between the ages of 15 and 49—the age group that provides the most support for the economies of sub-Saharan African countries.

(6) Clear evidence demonstrates that HIV/AIDS is destructive to the economies of sub-Saharan African countries.

(7) Sustained economic development is critical to creating the public and private sector resources in sub-Saharan Africa necessary to fight the HIV/AIDS epidemic.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) addressing the HIV/AIDS crisis in sub-Saharan Africa should be a central component of United States foreign policy with respect to sub-Saharan Africa;

(2) significant progress needs to be made in preventing and treating HIV/AIDS in sub-Saharan Africa in order to sustain a mutually beneficial trade relationship between the United States and sub-Saharan African countries; and

(3) the HIV/AIDS crisis in sub-Saharan Africa is a global threat that merits further attention through greatly expanded public, private, and joint public-private efforts, and through appropriate United States legislation.

SEC. 131. SENSE OF THE CONGRESS REGARDING EFFORTS TO COMBAT DESERTIFICATION IN AFRICA AND OTHER COUNTRIES. 19 USC 3741.

(a) FINDINGS.—The Congress finds that—

(1) desertification affects approximately one-sixth of the world's population and one-quarter of the total land area;

(2) over 1,000,000 hectares of Africa are affected by desertification;

PUBLIC LAW 106-200—MAY 18, 2000

(3) dryland degradation is an underlying cause of recurrent famine in Africa;

(4) the United Nations Environment Programme estimates that desertification costs the world \$42,000,000,000 a year, not including incalculable costs in human suffering; and

(5) the United States can strengthen its partnerships throughout Africa and other countries affected by desertification, help alleviate social and economic crises caused by misuse of natural resources, and reduce dependence on foreign aid, by taking a leading role to combat desertification.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that the United States should expeditiously work with the international community, particularly Africa and other countries affected by desertification, to—

(1) strengthen international cooperation to combat desertification;

(2) promote the development of national and regional strategies to address desertification and increase public awareness of this serious problem and its effects;

(3) develop and implement national action programs that identify the causes of desertification and measures to address it; and

(4) recognize the essential role of local governments and nongovernmental organizations in developing and implementing measures to address desertification.

United States-
Caribbean Basin
Trade
Partnership Act.

TITLE II—TRADE BENEFITS FOR CARIBBEAN BASIN

Subtitle A—Trade Policy for Caribbean Basin Countries

19 USC 2701
note.

SEC. 201. SHORT TITLE.

This title may be cited as the “United States-Caribbean Basin Trade Partnership Act”.

19 USC 2701
note.

SEC. 202. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) The Caribbean Basin Economic Recovery Act (in this title referred to as “CBERA”) represents a permanent commitment by the United States to encourage the development of strong democratic governments and revitalized economies in neighboring countries in the Caribbean Basin.

(2) In 1998, Hurricane Mitch and Hurricane Georges devastated areas in the Caribbean Basin region, killing more than 10,000 people and leaving 3,000,000 homeless.

(3) The total direct impact of Hurricanes Mitch and Georges on Honduras, Nicaragua, the Dominican Republic, El Salvador, and Guatemala amounts to \$4,200,000,000, representing a severe loss to income levels in this underdeveloped region.

(4) In addition to short term disaster assistance, United States policy toward the region should focus on expanding international trade with the Caribbean Basin region as an enduring solution for successful economic growth and recovery.

(5) Thirty-four democratically elected leaders agreed at the 1994 Summit of the Americas to conclude negotiation of a Free Trade Area of the Americas (in this title referred to as “FTAA”) by the year 2005.

(6) The economic security of the countries in the Caribbean Basin will be enhanced by the completion of the FTAA.

(7) Offering temporary benefits to Caribbean Basin countries will preserve the United States commitment to Caribbean

PUBLIC LAW 106-200—MAY 18, 2000

Basin beneficiary countries, promote the growth of free enterprise and economic opportunity in these neighboring countries, and thereby enhance the national security interests of the United States.

(8) Given the greater propensity of countries located in the Western Hemisphere to use United States components and to purchase United States products compared to other countries, increased trade and economic activity between the United States and countries in the Western Hemisphere will create new jobs in the United States as a result of expanding export opportunities.

(b) POLICY.—It is the policy of the United States—

(1) to offer Caribbean Basin beneficiary countries willing to prepare to become a party to the FTAA or another free trade agreement, tariff treatment essentially equivalent to that accorded to products of NAFTA countries for certain products not currently eligible for duty-free treatment under the CBERA; and

(2) to seek the participation of Caribbean Basin beneficiary countries in the FTAA or another free trade agreement at the earliest possible date, with the goal of achieving full participation in such agreement not later than 2005.

SEC. 203. DEFINITIONS.

19 USC 2701
note.

In this title:

(1) NAFTA.—The term “NAFTA” means the North American Free Trade Agreement entered into between the United States, Mexico, and Canada on December 17, 1992.

(2) NAFTA COUNTRY.—The term “NAFTA country” means any country with respect to which the NAFTA is in force.

“(b) IMPORT-SENSITIVE ARTICLES.—

“(1) IN GENERAL.—Subject to paragraphs (2) through (5), the duty-free treatment provided under this title does not apply to—

“(A) textile and apparel articles which were not eligible articles for purposes of this title on January 1, 1994, as this title was in effect on that date;

PUBLIC LAW 106-200—MAY 18, 2000

“(F) articles to which reduced rates of duty apply under subsection (h).

“(2) TRANSITION PERIOD TREATMENT OF CERTAIN TEXTILE AND APPAREL ARTICLES.—

“(A) ARTICLES COVERED.—During the transition period, the preferential treatment described in subparagraph (B) shall apply to the following articles:

“(i) APPAREL ARTICLES ASSEMBLED IN ONE OR MORE CBTPA BENEFICIARY COUNTRIES.—Apparel articles assembled in one or more CBTPA beneficiary countries from fabrics wholly formed and cut in the United States, from yarns wholly formed in the United States, (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are wholly formed and cut in the United States) that are—

“(I) entered under subheading 9802.00.80 of the HTS; or

“(II) entered under chapter 61 or 62 of the HTS, if, after such assembly, the articles would have qualified for entry under subheading 9802.00.80 of the HTS but for the fact that the articles were embroidered or subjected to stone-washing, enzyme-washing, acid washing, perma-pressing, oven-baking, bleaching, garment-dyeing, screen printing, or other similar processes.

“(ii) APPAREL ARTICLES CUT AND ASSEMBLED IN ONE OR MORE CBTPA BENEFICIARY COUNTRIES.—Apparel articles cut in one or more CBTPA beneficiary countries from fabric wholly formed in the United States from yarns wholly formed in the United States (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are wholly formed in the United States), if such articles are assembled in one or more such countries with thread formed in the United States.

“(iii) CERTAIN KNIT APPAREL ARTICLES.—(I) Apparel articles knit to shape (other than socks provided for in heading 6115 of the HTS) in a CBTPA beneficiary country from yarns wholly formed in the United States, and knit apparel articles (other than t-shirts described in subclause (III)) cut and wholly assembled in one or more CBTPA beneficiary countries from fabric formed in one or more CBTPA beneficiary countries or the United States from yarns wholly formed in the United States (including fabrics not formed from yarns, if such fabrics are classifiable under heading 5602 or 5603 of the HTS and are formed in one or more CBTPA beneficiary countries), in an amount not exceeding the amount set forth in subclause (II).

“(II) The amount referred to in subclause (I) is—

“(aa) 250,000,000 square meter equivalents during the 1-year period beginning on October 1, 2000, increased by 16 percent, compounded annually, in each succeeding 1-year period through September 30, 2004; and

“(bb) in each 1-year period thereafter through September 30, 2008, the amount in effect for the 1-year period ending on September 30, 2004, or such other amount as may be provided by law.

“(III) T-shirts, other than underwear, classifiable under subheadings 6109.10.00 and 6109.90.10 of the HTS, made in one or more CBTPA beneficiary countries from fabric formed in one or more CBTPA beneficiary countries from yarns wholly formed in the

PUBLIC LAW 106-200—MAY 18, 2000

United States, in an amount not exceeding the amount set forth in subclause (IV).

“(IV) the amount referred to in subclause (III) is—

“(aa) 4,200,000 dozen during the 1-year period beginning on October 1, 2000, increased by 16 percent, compounded annually, in each succeeding 1-year period through September 30, 2004; and

“(bb) in each 1-year period thereafter, the amount in effect for the 1-year period ending on September 30, 2004, or such other amount as may be provided by law.

“(V) It is the sense of the Congress that the Congress should determine, based on the record of expansion of exports from the United States as a result of the preferential treatment of articles under this clause, the percentage by which the amount provided in subclauses (II) and (IV) should be compounded for the 1-year periods occurring after the 1-year period ending on September 30, 2004.

“(iv) CERTAIN OTHER APPAREL ARTICLES.—(I) Subject to subclause (II), any apparel article classifiable under subheading 6212.10 of the HTS, if the article is both cut and sewn or otherwise assembled in the United States, or one or more of the CBTPA beneficiary countries, or both.

“(II) During the 1-year period beginning on October 1, 2001, and during each of the six succeeding 1-year periods, apparel articles described in subclause (I) of a producer or an entity controlling production shall be eligible for preferential treatment under subparagraph (B) only if the aggregate cost of fabric components formed in the United States that are used in the production of all such articles of that producer or entity during the preceding 1-year period is at least 75 percent of the aggregate declared customs value of the fabric contained in all such articles of that producer or entity that are entered during the preceding 1-year period.

“(III) The United States Customs Service shall develop and implement methods and procedures to ensure ongoing compliance with the requirement set forth in subclause (II). If the Customs Service finds that a producer or an entity controlling production has not satisfied such requirement in a 1-year period, then apparel articles described in subclause (I) of that producer or entity shall be ineligible for preferential treatment under subparagraph (B) during any succeeding 1-year period until the aggregate cost of fabric components formed in the United States used in the production of such articles of that producer or entity in the preceding 1-year period is at least 85 percent of the aggregate declared customs value of the fabric contained in all such articles of that producer or entity that are entered during the preceding 1-year period.

“(v) APPAREL ARTICLES ASSEMBLED FROM FABRICS OR YARN NOT WIDELY AVAILABLE IN COMMERCIAL QUANTITIES.—(I) Apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries, from fabrics or yarn that is not formed in the United States or in one or more CBTPA beneficiary countries, to the extent that apparel articles of such fabrics or yarn would be eligible for preferential treatment, without regard

PUBLIC LAW 106-200—MAY 18, 2000

to the source of the fabrics or yarn, under Annex 401 of the NAFTA.

“(II) At the request of any interested party, the President is authorized to proclaim additional fabrics and yarn as eligible for preferential treatment under subclause (I) if—

“(aa) the President determines that such fabrics or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner;

“(bb) the President has obtained advice regarding the proposed action from the appropriate advisory committee established under section 135 of the Trade Act of 1974 (19 U.S.C. 2155) and the United States International Trade Commission;

“(cc) within 60 days after the request, the President has submitted a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate that sets forth the action proposed to be proclaimed and the reasons for such actions, and the advice obtained under division (bb);

“(dd) a period of 60 calendar days, beginning with the first day on which the President has met the requirements of division (cc), has expired; and

“(ee) the President has consulted with such committees regarding the proposed action during the period referred to in division (cc).

“(vi) HANDLOOMED, HANDMADE, AND FOLKLORE ARTICLES.—A handloomed, handmade, or folklore article of a CBTPA beneficiary country identified under subparagraph (C) that is certified as such by the competent authority of such beneficiary country.

“(vii) SPECIAL RULES.—

“(I) EXCEPTION FOR FINDINGS AND TRIMMINGS.—(aa) An article otherwise eligible for preferential treatment under this paragraph shall not be ineligible for such treatment because the article contains findings or trimmings of foreign origin, if such findings and trimmings do not exceed 25 percent of the cost of the components of the assembled product. Examples of findings and trimmings are sewing thread, hooks and eyes, snaps, buttons, ‘bow buds’, decorative lace, trim, elastic strips, zippers, including zipper tapes and labels, and other similar products. Elastic strips are considered findings or trimmings only if they are each less than 1 inch in width and are used in the production of brassieres.

“(bb) In the case of an article described in clause (ii) of this subparagraph, sewing thread shall not be treated as findings or trimmings under this subclause.

“(II) CERTAIN INTERLINING.—(aa) An article otherwise eligible for preferential treatment under this paragraph shall not be ineligible for such treatment because the article contains certain interlinings of foreign origin, if the value of such interlinings (and any findings and trimmings) does not exceed 25 percent of the cost of the components of the assembled article.

“(bb) Interlinings eligible for the treatment described in division (aa) include only a chest type

plate, 'hymo' piece, or 'sleeve header', of woven or weft-inserted warp knit construction and of coarse animal hair or man-made filaments.

"(cc) The treatment described in this subclause shall terminate if the President makes a determination that United States manufacturers are producing such interlinings in the United States in commercial quantities.

"(III) DE MINIMIS RULE.—An article that would otherwise be ineligible for preferential treatment under this paragraph because the article contains fibers or yarns not wholly formed in the United States or in one or more CBTPA beneficiary countries shall not be ineligible for such treatment if the total weight of all such fibers or yarns is not more than 7 percent of the total weight of the good. Notwithstanding the preceding sentence, an apparel article containing elastomeric yarns shall be eligible for preferential treatment under this paragraph only if such yarns are wholly formed in the United States.

"(IV) SPECIAL ORIGIN RULE.—An article otherwise eligible for preferential treatment under clause (i) or (ii) of this subparagraph shall not be ineligible for such treatment because the article contains nylon filament yarn (other than elastomeric yarn) that is classifiable under subheading 5402.10.30, 5402.10.60, 5402.31.30, 5402.31.60, 5402.32.30, 5402.32.60, 5402.41.10, 5402.41.90, 5402.51.00, or 5402.61.00 of the HTS duty-free from a country that is a party to an agreement with the United States establishing a free trade area, which entered into force before January 1, 1995.

"(viii) TEXTILE LUGGAGE.—Textile luggage—

"(I) assembled in a CBTPA beneficiary country from fabric wholly formed and cut in the United States, from yarns wholly formed in the United States, that is entered under subheading 9802.00.80 of the HTS; or

"(II) assembled from fabric cut in a CBTPA beneficiary country from fabric wholly formed in the United States from yarns wholly formed in the United States.

"(B) PREFERENTIAL TREATMENT.—Except as provided in subparagraph (E), during the transition period, the articles to which this subparagraph applies shall enter the United States free of duty and free of any quantitative restrictions, limitations, or consultation levels.

"(C) HANDLOOMED, HANDMADE, AND FOLKLORE ARTICLES.—For purposes of subparagraph (A)(vi), the President shall consult with representatives of the CBTPA beneficiary countries concerned for the purpose of identifying particular textile and apparel goods that are mutually agreed upon as being handloomed, handmade, or folklore goods of a kind described in section 2.3(a), (b), or (c) of the Annex or Appendix 3.1.B.11 of the Annex.

"(D) PENALTIES FOR TRANSSHIPMENTS.—

"(i) PENALTIES FOR EXPORTERS.—If the President determines, based on sufficient evidence, that an exporter has engaged in transshipment with respect to textile or apparel articles from a CBTPA beneficiary country, then the President shall deny all benefits under this title to such exporter, and any successor of such exporter, for a period of 2 years.

PUBLIC LAW 106-200—MAY 18, 2000

President.

“(ii) **PENALTIES FOR COUNTRIES.**—Whenever the President finds, based on sufficient evidence, that transshipment has occurred, the President shall request that the CBTPA beneficiary country or countries through whose territory the transshipment has occurred take all necessary and appropriate actions to prevent such transshipment. If the President determines that a country is not taking such actions, the President shall reduce the quantities of textile and apparel articles that may be imported into the United States from such country by the quantity of the transshipped articles multiplied by 3, to the extent consistent with the obligations of the United States under the WTO.

“(iii) **TRANSSHIPMENT DESCRIBED.**—Transshipment within the meaning of this subparagraph has occurred when preferential treatment under subparagraph (B) has been claimed for a textile or apparel article on the basis of material false information concerning the country of origin, manufacture, processing, or assembly of the article or any of its components. For purposes of this clause, false information is material if disclosure of the true information would mean or would have meant that the article is or was ineligible for preferential treatment under subparagraph (B).

“(E) **BILATERAL EMERGENCY ACTIONS.**—

“(i) **IN GENERAL.**—The President may take bilateral emergency tariff actions of a kind described in section 4 of the Annex with respect to any apparel article imported from a CBTPA beneficiary country if the application of tariff treatment under subparagraph (B) to such article results in conditions that would be cause for the taking of such actions under such section 4 with respect to a like article described in the same 8-digit subheading of the HTS that is imported from Mexico.

“(ii) **RULES RELATING TO BILATERAL EMERGENCY ACTION.**—For purposes of applying bilateral emergency action under this subparagraph—

“(I) the requirements of paragraph (5) of section 4 of the Annex (relating to providing compensation) shall not apply;

“(II) the term ‘transition period’ in section 4 of the Annex shall have the meaning given that term in paragraph (5)(D) of this subsection; and

“(III) the requirements to consult specified in section 4 of the Annex shall be treated as satisfied if the President requests consultations with the CBTPA beneficiary country in question and the country does not agree to consult within the time period specified under section 4.

“(3) **TRANSITION PERIOD TREATMENT OF CERTAIN OTHER ARTICLES ORIGINATING IN BENEFICIARY COUNTRIES.**—

“(A) **EQUIVALENT TARIFF TREATMENT.**—

SEC. 409. AGRICULTURAL TRADE NEGOTIATING OBJECTIVES AND CONSULTATIONS WITH CONGRESS.

(a) FINDINGS.—Congress finds that—

(1) United States agriculture contributes positively to the United States balance of trade and United States agricultural exports support in excess of 1,000,000 United States jobs;

(2) United States agriculture competes successfully worldwide despite the fact that United States producers are at a competitive disadvantage because of the trade distorting support and subsidy practices of other countries and despite the fact that significant tariff and nontariff barriers exist to United States exports; and

(3) a successful conclusion of the current World Trade Organization agricultural negotiations is critically important to the United States agricultural sector.

(b) OBJECTIVES.—The agricultural trade negotiating objectives of the United States with respect to the current World Trade Organization agricultural negotiations include as matters of the highest priority—

(1) the expeditious elimination of all export subsidies worldwide while maintaining bona fide food aid and preserving United States market development and export credit programs that allow the United States to compete with other foreign export promotion efforts;

(2) leveling the playing field for United States producers of agricultural products by eliminating blue box subsidies and disciplining domestic supports in a way that forces producers to face world prices on all production in excess of domestic food security needs while allowing the preservation of nontrade distorting programs to support family farms and rural communities;

(3) the elimination of state trading enterprises or the adoption of rigorous disciplines that ensure operational transparency, competition, and the end of discriminatory pricing practices, including policies supporting cross-subsidization and price undercutting in export markets;

(4) affirming that the World Trade Organization Agreement on the Application of Sanitary and Phytosanitary Measures applies to new technologies, including biotechnology, and that labeling requirements to allow consumers to make choices regarding biotechnology products or other regulatory requirements may not be used as disguised barriers to trade;

(5) increasing opportunities for United States exports of agricultural products by reducing tariffs to the same levels that exist in the United States or to lower levels and by eliminating all nontariff barriers, including—

(A) restrictive or trade distorting practices, including those that adversely impact perishable or cyclical products;

(B) restrictive rules in the administration of tariff-rate quotas; and

(C) other barriers to agriculture trade, including unjustified restrictions or commercial requirements affecting new technologies, including biotechnology;

(6) eliminating government policies that create price-depressing surpluses; and

(7) strengthening dispute settlement procedures to ensure prompt compliance by foreign governments with their World Trade Organization obligations including commitments not to maintain unjustified restrictions on United States exports.

(c) CONSULTATION WITH CONGRESSIONAL COMMITTEES.—

(1) CONSULTATION BEFORE OFFER MADE.—In developing and before submitting an initial or revised negotiating proposal

PUBLIC LAW 106-200—MAY 18, 2000

that would reduce United States tariffs on agricultural products or require a change in United States agricultural law, the United States Trade Representative shall consult with the Committee on Agriculture, Nutrition, and Forestry and the Committee on Finance of the Senate and the Committee on Agriculture and the Committee on Ways and Means of the House of Representatives.

(2) CONSULTATION WITH CONGRESSIONAL TRADE ADVISERS.—Prior to and during the course of current negotiations on agricultural trade, the United States Trade Representative shall consult closely with the congressional trade advisers.

(3) CONSULTATION BEFORE AGREEMENT INITIALED.—Not less than 48 hours before initialing an agreement reached as part of current World Trade Organization agricultural negotiations, the United States Trade Representative shall consult closely with the committees referred to in paragraph (1) regarding—

(A) the details of the agreement;

(B) the potential impact of the agreement on United States agricultural producers; and

(C) any changes in United States law necessary to implement the agreement.

(4) DISCLOSURE OF COMMITMENTS.—Any agreement or other understanding addressing agricultural trade with a foreign government or governments (whether oral or in writing) that relates to a trade agreement with respect to which Congress must enact implementing legislation and that is not disclosed to Congress before legislation implementing that agreement is introduced in either House of Congress shall not be considered to be part of the agreement approved by Congress and shall have no force and effect under United States law or in any dispute settlement body.

(d) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) granting the President trade negotiating authority is essential to the successful conclusion of the new round of World Trade Organization agricultural negotiations;

(2) reaching a successful agreement on agriculture should be the top priority of United States negotiators; and

(3) if by the conclusion of the negotiations, the primary agricultural competitors of the United States do not agree to reduce their trade distorting domestic supports and eliminate export subsidies in accordance with the negotiating objectives expressed in this section, the United States should take steps to increase the leverage of United States negotiators and level the playing field for United States producers.

Public Law 106-212
106th Congress

An Act

May 26, 2000
[H.R. 3707]

To authorize funds for the construction of a facility in Taipei, Taiwan suitable for the mission of the American Institute in Taiwan.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*American
Institute in
Taiwan Facilities
Enhancement
Act.
Foreign relations.**SECTION 1. SHORT TITLE.**

This Act may be cited as the “American Institute in Taiwan Facilities Enhancement Act”.

SEC. 2. FINDINGS.

The Congress finds that—

(1) in the Taiwan Relations Act of 1979 (22 U.S.C. 3301 et seq.), the Congress established the American Institute in Taiwan (hereafter in this Act referred to as “AIT”), a nonprofit corporation incorporated in the District of Columbia, to carry out on behalf of the United States Government any and all programs, transactions, and other relations with Taiwan;

(2) the Congress has recognized AIT for the successful role it has played in sustaining and enhancing United States relations with Taiwan;

(3) the Taipei office of AIT is housed in buildings which were not originally designed for the important functions that AIT performs, whose location does not provide adequate security for its employees, and which, because they are almost 50 years old, have become increasingly expensive to maintain;

(4) the aging state of the AIT office building in Taipei is neither conducive to the safety and welfare of AIT’s American and local employees nor commensurate with the level of contact that exists between the United States and Taiwan;

(5) AIT has made a good faith effort to set aside funds for the construction of a new office building, but these funds will be insufficient to construct a building that is large and secure enough to meet AIT’s current and future needs; and

(6) because the Congress established AIT and has a strong interest in United States relations with Taiwan, the Congress has a special responsibility to ensure that AIT’s requirements for safe and appropriate office quarters are met.

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated the sum of \$75,000,000 to AIT—

(1) for plans for a new facility and, if necessary, residences or other structures located in close physical proximity to such facility, in Taipei, Taiwan, for AIT to carry out its purposes under the Taiwan Relations Act; and

(2) for acquisition by purchase or construction of such facility, residences, or other structures.

(b) **LIMITATIONS.**—Funds appropriated pursuant to subsection (a) may only be used if the new facility described in that subsection meets all requirements applicable to the security of United States diplomatic facilities, including the requirements in the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986 (22 U.S.C. 4801 et seq.) and the Secure Embassy Construction and Counterterrorism Act of 1999 (as enacted by section 1000(a)(7) of Public Law 106-113; 113 Stat. 1501A-451), except for those

requirements which the Director of AIT certifies to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate are not applicable on account of the special status of AIT. In making such certification, the Director shall also certify that security considerations permit the exercise of the waiver of such requirements.

Certification.

(c) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to subsection (a) are authorized to remain available until expended.

Aug. 2, 2000
[H.R. 4249]Cross-Border

Act of 2000.
Hazardous
substances.

To foster cross-border cooperation and environmental cleanup in Northern Europe.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,***SECTION 1. SHORT TITLE.**

This Act may be cited as the “Cross-Border Cooperation and Environmental Safety in Northern Europe Act of 2000”.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1) Northern Europe is an increasingly vital part of Europe and one that offers great opportunities for United States investment.

(2) Northern Europe offers an excellent opportunity to make progress toward the United States vision of a secure, prosperous, and stable Europe, in part because of—

(A) historical tradition of regional cooperation;

(B) the opportunity to engage Russia in positive, cooperative activities with its neighbors to the west;

(C) commitment by the Baltic states to regional cooperation and integration into western institutions; and

(D) longstanding, strong ties with the United States.

(3) The United States Northern Europe Initiative (NEI) provides the conceptual and operational framework for United States policy in the region, focused on developing a regional network of cooperation in the important areas of business and trade promotion, law enforcement, the environment, energy, civil society, and public health.

(4) A central objective of the United States Northern Europe Initiative is to promote cross-border cooperation among the countries in the region.

(5) A wide variety of regional and cross-border projects have been initiated under the United States Northern Europe Initiative since the Initiative was established in 1997, including the following:

(A) A United States-Lithuanian training program for entrepreneurs from Belarus and Kaliningrad.

(B) The Great Lakes-Baltic Sea Partnership program that is being implemented by the Environmental Protection Agency.

(C) A Center of Excellence for Treatment of Multidrug-Resistant Tuberculosis in Riga, Latvia.

(D) A regional HIV/AIDS strategy being developed under United States and Finnish leadership.

(E) Multiple efforts to combat organized crime, including regional seminars for police officers and prosecutors.

(F) Programs to encourage reform of the Baltic electricity market and encourage United States investment in such market.

(G) Language and job training programs for Russian-speaking minorities in Latvia and Estonia to promote social integration in those countries.

(H) A mentoring partnership program for woman entrepreneurs in the northwest region of Russia and the Baltic

PUBLIC LAW 106-255—AUG. 2, 2000

states, as part of broader efforts to promote women's participation in political and economic life.

(6) Norway, Sweden, and Finland have made considerable efforts to provide assistance to the newly independent Baltic states and to the Northwest region of Russia. In particular, the United States notes the request placed before the European Union by Finland in 1999 for the creation and extensive funding by the European Union of a "Northern Dimension" Initiative to substantially address the problems that now exist in Northern Europe with regard to economic development, protection of the environment, the safety and containment of nuclear materials, and other issues.

(7) The United States commends the endorsement of the "Northern Dimension" Initiative by the European Council at its meeting in Helsinki, Finland in December 1999 and calls on the European Union to act on that endorsement through the provision of substantial funding for the Initiative.

(8) While the European Union, its member states, and other European countries should clearly take the lead in addressing the challenges posed in Northern Europe, in particular through appropriate yet substantial assistance provided by the European Union, the United States Northern Europe Initiative, and this Act are intended to supplement such efforts and build on the considerable assistance that the United States has already provided to the Baltic states and the Russian Federation. Partnership with other countries in the region means modest United States investment can have significant impact.

(9) The United States Northern Europe Initiative's focus on regional environmental challenges is particularly important. Northern Europe is home to significant environmental problems, particularly the threat posed by nuclear waste from Russian submarines, icebreakers, and nuclear reactors.

(10) In particular, 21,000 spent fuel assemblies from Russian submarines are lying exposed near Andreyeva Bay, nearly 60 dangerously decrepit nuclear submarines, many in danger of sinking, are languishing in the Murmansk area of Northwest Russia, whole reactors and radioactive liquid waste are stored on unsafe floating barges, and there are significant risks of marine and atmospheric contamination from accidents arising from loss of electricity or fire on deteriorating, poorly monitored nuclear submarines.

(11) This waste poses a threat to the safety and stability of Northern Europe and to countries of the Eurasian continent.

(12)(A) In addition, the Environmental Protection Agency has facilitated the expansion and upgrading of a facility for the treatment of low-level liquid radioactive waste from the decommissioning of nuclear submarines docked at naval facilities in the Arctic region of Russia.

(B) The Environmental Protection Agency has also initiated a project to construct an 80-ton prototype cask for the storage and transport of civilian-controlled spent nuclear fuel, much of it damaged and currently stored onboard an aging vessel anchored in Murmansk Harbor. Currently in the design phase, this project is scheduled for completion in 2000.

(13) Working with the countries in the region to address these environmental problems remains vital to the long-term national interest of the United States.

(14) The United States and other countries are currently negotiating a number of agreements with Russia which will provide internationally accepted legal protections for the United States and other countries that provide nuclear waste management assistance to Russia. Regrettably, it has not yet been possible to resolve remaining differences over liability, taxation

PUBLIC LAW 106-255—AUG. 2, 2000

of assistance, privileges and immunities for foreign contractors, and audit rights.

(15) Concluding these agreements is vital to the continued provision of such assistance and to the possible development of new programs.

(16) With the election of Russian President Vladamir Putin, the opportunity presents itself to surmount these problems, to conclude these outstanding agreements, and to allow assistance programs to move forward to alleviate this problem.

(17) The United States Government is currently studying whether dismantlement of multi-purpose submarines is in the national interest.

(b) PURPOSE.—The purpose of this Act is to demonstrate concrete support for continued cross-border cooperation in Northern Europe and immediate efforts to assist in the clean up of nuclear waste in that region.

SEC. 3. SENSE OF THE CONGRESS.

It is the sense of the Congress that—

(1) the United States Northern Europe Initiative is a sound framework for future United States involvement in Northern Europe;

(2) the European Union should move expeditiously to authorize and fund the proposed “Northern Dimension” Initiative at appropriate yet substantial levels of assistance;

(3) the United States should continue to support a wide-ranging strengthening of democratic and civic institutions on a regional basis to provide a foundation for political stability and investment opportunities, including cross-border exchanges, in Northern Europe;

(4) the United States should demonstrate continued commitment to address environmental security challenges in Northwest Russia, in cooperation with partners in the region;

(5) recently-elected Russian President Vladamir Putin should rapidly conclude pending nuclear waste management agreements to enable assistance programs to go forward; and

(6) assistance to Russia on nuclear waste management should only be provided after issues related to liability, taxation of assistance, privileges and immunities for foreign contractors, and audit rights have been resolved.

SEC. 4. SUPPORT FOR UNITED STATES NORTHERN EUROPE INITIATIVE PROJECTS.

(a) AVAILABILITY OF AMOUNTS FROM EAST EUROPEAN AND THE BALTIC STATES ASSISTANCE.—Of the amounts available for fiscal year 2001 to carry out the provisions of the Foreign Assistance Act of 1961 and the Support for Eastern European Democracy (SEED) Act of 1989 for assistance and for related programs for Eastern Europe and the Baltic states, not less than \$2,000,000 shall be used for projects described in subsection (c).

(b) AVAILABILITY OF AMOUNTS FROM INDEPENDENT STATES OF THE FORMER SOVIET UNION ASSISTANCE.—Of the amounts available for fiscal year 2001 to carry out the provisions of chapter 11 of part I of the Foreign Assistance Act of 1961 and the Freedom for Russia and Emerging Eurasian Democracies and Open Markets Support Act of 1992 for assistance for the independent states of the former Soviet Union and related programs, not less than \$2,000,000 shall be used for the projects described in subsection (c).

(c) PROJECTS DESCRIBED.—The projects described in this subsection are United States Northern Europe Initiative projects relating to environmental cleanup, law enforcement, public health, energy, business and trade promotion, and civil society.

PUBLIC LAW 106-255—AUG. 2, 2000

SEC. 5. REPORT ON ENVIRONMENTAL SECURITY.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with the heads of other appropriate Federal departments and agencies, shall prepare and submit to the Congress a report on—

Deadline.

(1) the threat to the environmental security of the countries of Northern Europe and other countries of Europe and Asia presented by Russian marine nuclear reactors, waste, and contamination; and

(2) identifying the possibilities for new and expanded United States and multilateral assistance programs for environmental clean-up in Northwest Russia, including technical exchanges and private-public partnerships.

SEC. 6. DEFINITIONS.

In this Act:

(1) **NORTHERN EUROPE.**—The term “Northern Europe” means the northwest region of the Russian Federation (including Kaliningrad), the Republic of Belarus, the Republic of Estonia, the Republic of Latvia, the Republic of Lithuania, the Kingdom of Denmark, the Republic of Finland, the Republic of Iceland, the Kingdom of Norway, the Republic of Poland, and the Kingdom of Sweden.

(2) **UNITED STATES NORTHERN EUROPE INITIATIVE.**—The term “United States Northern Europe Initiative” means the framework agreement established in 1997 between the United States and the countries of Northern Europe to promote stability in the Baltic Sea region and to strengthen key institutions and security structures of the United States and the countries of Northern Europe.

22 USC 6801
note.

SEC. 103. FINDINGS AND PURPOSES.

22 USC 6802.

(a) FINDINGS.—Congress makes the following findings:

(1) According to the Surgeon General of the United States, the epidemic of human immunodeficiency virus/acquired immune deficiency syndrome (HIV/AIDS) will soon become the worst epidemic of infectious disease in recorded history, eclipsing both the bubonic plague of the 1300’s and the influenza epidemic of 1918–1919 which killed more than 20,000,000 people worldwide.

(2) According to the Joint United Nations Programme on HIV/AIDS (UNAIDS), more than 34,300,000 people in the world today are living with HIV/AIDS, of which approximately 95 percent live in the developing world.

(3) UNAIDS data shows that among children age 14 and under worldwide, more than 3,800,000 have died from AIDS, more than 1,300,000 are living with the disease; and in 1 year alone—1999—an estimated 620,000 became infected, of which over 90 percent were babies born to HIV-positive women.

(4) Although sub-Saharan Africa has only 10 percent of the world’s population, it is home to more than 24,500,000—roughly 70 percent—of the world’s HIV/AIDS cases.

(5) Worldwide, there have already been an estimated 18,800,000 deaths because of HIV/AIDS, of which more than 80 percent occurred in sub-Saharan Africa.

(6) The gap between rich and poor countries in terms of transmission of HIV from mother to child has been increasing. Moreover, AIDS threatens to reverse years of steady progress of child survival in developing countries. UNAIDS believes that by the year 2010, AIDS may have increased mortality of children under 5 years of age by more than 100 percent in regions most affected by the virus.

(7) According to UNAIDS, by the end of 1999, 13,200,000 children have lost at least one parent to AIDS, including 12,100,000 children in sub-Saharan Africa, and are thus considered AIDS orphans.

(8) At current infection and growth rates for HIV/AIDS, the National Intelligence Council estimates that the number of AIDS orphans worldwide will increase dramatically, potentially increasing threefold or more in the next 10 years, contributing to economic decay, social fragmentation, and political destabilization in already volatile and strained societies. Chil-

PUBLIC LAW 106-264—AUG. 19, 2000

dren without care or hope are often drawn into prostitution, crime, substance abuse, or child soldiery.

(9) Donors must focus on adequate preparations for the explosion in the number of orphans and the burden they will place on families, communities, economies, and governments. Support structures and incentives for families, communities, and institutions which will provide care for children orphaned by HIV/AIDS, or for the children who are themselves afflicted by HIV/AIDS, will be essential.

(10) The 1999 annual report by the United Nations Children's Fund (UNICEF) states "[t]he number of orphans, particularly in Africa, constitutes nothing less than an emergency, requiring an emergency response" and that "finding the resources needed to help stabilize the crisis and protect children is a priority that requires urgent action from the international community."

(11) The discovery of a relatively simple and inexpensive means of interrupting the transmission of HIV from an infected mother to the unborn child—namely with nevirapine (NVP), which costs US\$4 a tablet—has created a great opportunity for an unprecedented partnership between the United States Government and the governments of Asian, African and Latin American countries to reduce mother-to-child transmission (also known as "vertical transmission") of HIV.

(12) According to UNAIDS, if implemented this strategy will decrease the proportion of orphans that are HIV-infected and decrease infant and child mortality rates in these developing regions.

(13) A mother-to-child antiretroviral drug strategy can be a force for social change, providing the opportunity and impetus needed to address often long-standing problems of inadequate services and the profound stigma associated with HIV-infection and the AIDS disease. Strengthening the health infrastructure to improve mother-and-child health, antenatal, delivery and postnatal services, and couples counseling generates enormous spillover effects toward combating the AIDS epidemic in developing regions.

(14) United States Census Bureau statistics show life expectancy in sub-Saharan Africa falling to around 30 years of age within a decade, the lowest in a century, and project life expectancy in 2010 to be 29 years of age in Botswana, 30 years of age in Swaziland, 33 years of age in Namibia and Zimbabwe, and 36 years of age in South Africa, Malawi, and Rwanda, in contrast to a life expectancy of 70 years of age in many of the countries without a high prevalence of AIDS.

(15) A January 2000 United States National Intelligence Estimate (NIE) report on the global infectious disease threat concluded that the economic costs of infectious diseases—especially HIV/AIDS—are already significant and could reduce GDP by as much as 20 percent or more by 2010 in some sub-Saharan African nations.

(16) According to the same NIE report, HIV prevalence among militias in Angola and the Democratic Republic of the Congo are estimated at 40 to 60 percent, and at 15 to 30 percent in Tanzania.

(17) The HIV/AIDS epidemic is of increasing concern in other regions of the world, with UNAIDS estimating that there are more than 5,600,000 cases in South and South-east Asia, that the rate of HIV infection in the Caribbean is second only to sub-Saharan Africa, and that HIV infections have doubled in just 2 years in the former Soviet Union.

(18) Despite the discouraging statistics on the spread of HIV/AIDS, some developing nations—such as Uganda, Senegal,

PUBLIC LAW 106-264—AUG. 19, 2000

and Thailand—have implemented prevention programs that have substantially curbed the rate of HIV infection.

(19) AIDS, like all diseases, knows no national boundaries, and there is no certitude that the scale of the problem in one continent can be contained within that region.

(20) Accordingly, United States financial support for medical research, education, and disease containment as a global strategy has beneficial ramifications for millions of Americans and their families who are affected by this disease, and the entire population which is potentially susceptible.

(b) PURPOSES.—The purposes of this title are to—

(1) help prevent human suffering through the prevention, diagnosis, and treatment of HIV/AIDS; and

(2) help ensure the viability of economic development, stability, and national security in the developing world by advancing research to—

(A) understand the causes associated with HIV/AIDS in developing countries; and

(B) assist in the development of an AIDS vaccine.

Subtitle A—United States Assistance

SEC. 111. ADDITIONAL ASSISTANCE AUTHORITIES TO COMBAT HIV AND AIDS.

(a) ASSISTANCE FOR PREVENTION OF HIV/AIDS AND VERTICAL TRANSMISSION.—Section 104(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b(c)) is amended by adding at the end the following new paragraphs:

Children and youth.

“(4)(A) Congress recognizes the growing international dilemma of children with the human immunodeficiency virus (HIV) and the merits of intervention programs aimed at this problem. Congress further recognizes that mother-to-child transmission prevention strategies can serve as a major force for change in developing regions, and it is, therefore, a major objective of the foreign assistance program to control the acquired immune deficiency syndrome (AIDS) epidemic.

“(B) The agency primarily responsible for administering this part shall—

“(i) coordinate with UNAIDS, UNICEF, WHO, national and local governments, and other organizations to develop and implement effective strategies to prevent vertical transmission of HIV; and

“(ii) coordinate with those organizations to increase intervention programs and introduce voluntary counseling and testing, antiretroviral drugs, replacement feeding, and other strategies.

“(5)(A) Congress expects the agency primarily responsible for administering this part to make the human immunodeficiency virus (HIV) and the acquired immune deficiency syndrome (AIDS) a priority in the foreign assistance program and to undertake a comprehensive, coordinated effort to combat HIV and AIDS.

“(B) Assistance described in subparagraph (A) shall include help providing—

“(i) primary prevention and education;

“(ii) voluntary testing and counseling;

“(iii) medications to prevent the transmission of HIV from mother to child; and

“(iv) care for those living with HIV or AIDS.

“(6)(A) In addition to amounts otherwise available for such purpose, there is authorized to be appropriated to the President \$300,000,000 for each of the fiscal years 2001 and 2002 to carry out paragraphs (4) and (5).

“(B) Of the funds authorized to be appropriated under subparagraph (A), not less than 65 percent is authorized to be available

PUBLIC LAW 106-264—AUG. 19, 2000

through United States and foreign nongovernmental organizations, including private and voluntary organizations, for-profit organizations, religious affiliated organizations, educational institutions, and research facilities.

“(C)(i) Of the funds authorized to be appropriated by subparagraph (A), not less than 20 percent is authorized to be available for programs as part of a multidonor strategy to address the support and education of orphans in sub-Saharan Africa, including AIDS orphans.

“(ii) Assistance made available under this subsection, and assistance made available under chapter 4 of part II to carry out the purposes of this subsection, may be made available notwithstanding any other provision of law that restricts assistance to foreign countries.

“(D) Of the funds authorized to be appropriated under subparagraph (A), not less than 8.3 percent is authorized to be available to carry out the prevention strategies for vertical transmission referred to in paragraph (4)(A).

“(E) Of the funds authorized to be appropriated by subparagraph (A), not more than 7 percent may be used for the administrative expenses of the agency primarily responsible for carrying out this part of this Act in support of activities described in paragraphs (4) and (5).

“(F) Funds appropriated under this paragraph are authorized to remain available until expended.”.

(b) TRAINING AND TRAINING FACILITIES IN SUB-SAHARAN AFRICA.—Section 496(i)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 2293(i)(2)) is amended by adding at the end the following new sentence: “In addition, providing training and training facilities, in sub-Saharan Africa, for doctors and other health care providers, notwithstanding any provision of law that restricts assistance to foreign countries.”.

SEC. 112. VOLUNTARY CONTRIBUTION TO GLOBAL ALLIANCE FOR VACCINES AND IMMUNIZATIONS AND INTERNATIONAL AIDS VACCINE INITIATIVE.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 302 of the Foreign Assistance Act of 1961 (22 U.S.C. 2222) is amended by adding at the end the following new subsections:

“(k) In addition to amounts otherwise available under this section, there is authorized to be appropriated to the President \$50,000,000 for each of the fiscal years 2001 and 2002 to be available only for United States contributions to the Global Alliance for Vaccines and Immunizations.

“(l) In addition to amounts otherwise available under this section, there is authorized to be appropriated to the President \$10,000,000 for each of the fiscal years 2001 and 2002 to be available only for United States contributions to the International AIDS Vaccine Initiative.”.

(b) REPORT.—At the close of fiscal year 2001, the President shall submit a report to the appropriate congressional committees on the effectiveness of the Global Alliance for Vaccines and Immunizations and the International AIDS Vaccine Initiative during that fiscal year in meeting the goals of—

- (1) improving access to sustainable immunization services;
- (2) expanding the use of all existing, safe, and cost-effective vaccines where they address a public health problem;

TITLE II—INTERNATIONAL TUBERCULOSIS CONTROL

International
Tuberculosis
Control Act of
2000.**SEC. 201. SHORT TITLE.**22 USC 2151
note.

This title may be cited as the “International Tuberculosis Control Act of 2000”.

SEC. 202. FINDINGS.22 USC 2151b
note.

Congress makes the following findings:

(1) Since the development of antibiotics in the 1950s, tuberculosis has been largely controlled in the United States and the Western World.

(2) Due to societal factors, including growing urban decay, inadequate health care systems, persistent poverty, overcrowding, and malnutrition, as well as medical factors, including the HIV/AIDS epidemic and the emergence of multi-drug resistant strains of tuberculosis, tuberculosis has again become a leading and growing cause of adult deaths in the developing world.

(3) According to the World Health Organization—

(A) in 1998, about 1,860,000 people worldwide died of tuberculosis-related illnesses;

(B) one-third of the world’s total population is infected with tuberculosis; and

(C) tuberculosis is the world’s leading killer of women between 15 and 44 years old and is a leading cause of children becoming orphans.

(4) Because of the ease of transmission of tuberculosis, its international persistence and growth pose a direct public health threat to those nations that had previously largely controlled the disease. This is complicated in the United States by the growth of the homeless population, the rate of incarceration, international travel, immigration, and HIV/AIDS.

(5) With nearly 40 percent of the tuberculosis cases in the United States attributable to foreign-born persons, tuberculosis will never be controlled in the United States until it is controlled abroad.

(6) The means exist to control tuberculosis through screening, diagnosis, treatment, patient compliance, monitoring, and ongoing review of outcomes.

(7) Efforts to control tuberculosis are complicated by several barriers, including—

(A) the labor intensive and lengthy process involved in screening, detecting, and treating the disease;

(B) a lack of funding, trained personnel, and medicine in virtually every nation with a high rate of the disease;

(C) the unique circumstances in each country, which requires the development and implementation of country-specific programs; and

PUBLIC LAW 106-264—AUG. 19, 2000

(D) the risk of having a bad tuberculosis program, which is worse than having no tuberculosis program because it would significantly increase the risk of the development of more widespread drug-resistant strains of the disease.

(8) Eliminating the barriers to the international control of tuberculosis through a well-structured, comprehensive, and coordinated worldwide effort would be a significant step in dealing with the increasing public health problem posed by the disease.

SEC. 203. ASSISTANCE FOR TUBERCULOSIS PREVENTION, TREATMENT, CONTROL, AND ELIMINATION.

Section 104(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b(c)), as amended by section 111(a) of this Act, is further amended by adding at the end the following:

“(7)(A) Congress recognizes the growing international problem of tuberculosis and the impact its continued existence has on those nations that had previously largely controlled the disease. Congress further recognizes that the means exist to control and treat tuberculosis, and that it is therefore a major objective of the foreign assistance program to control the disease. To this end, Congress expects the agency primarily responsible for administering this part—

“(i) to coordinate with the World Health Organization, the Centers for Disease Control, the National Institutes of Health, and other organizations toward the development and implementation of a comprehensive tuberculosis control program; and

“(ii) to set as a goal the detection of at least 70 percent of the cases of infectious tuberculosis, and the cure of at least 85 percent of the cases detected, in those countries in which the agency has established development programs, by December 31, 2010.

“(B) There is authorized to be appropriated to the President, \$60,000,000 for each of the fiscal years 2001 and 2002 to be used to carry out this paragraph. Funds appropriated under this subparagraph are authorized to remain available until expended.”.

TITLE III—ADMINISTRATIVE AUTHORITIES

SEC. 301. EFFECTIVE PROGRAM OVERSIGHT.

Section 635 of the Foreign Assistance Act of 1961 (22 U.S.C. 2395) is amended by adding at the end thereof the following new subsection:

“(l) The Administrator of the agency primarily responsible for administering part I may use funds made available under that part to provide program and management oversight for activities that are funded under that part and that are conducted in countries in which the agency does not have a field mission or office.”.

SEC. 302. TERMINATION EXPENSES.

Section 617 of the Foreign Assistance Act of 1961 (22 U.S.C. 2367) is amended to read as follows:

“SEC. 617. TERMINATION EXPENSES.

“(a) IN GENERAL.—Funds made available under this Act and the Arms Export Control Act, may remain available for obligation for a period not to exceed 8 months from the date of any termination of assistance under such Acts for the necessary expenses of winding up programs related to such termination and may remain available until expended. Funds obligated under the authority of such Acts prior to the effective date of the termination of assistance may

PUBLIC LAW 106-264—AUG. 19, 2000

remain available for expenditure for the necessary expenses of winding up programs related to such termination notwithstanding any provision of law restricting the expenditure of funds. In order to ensure the effectiveness of such assistance, such expenses for orderly termination of programs may include the obligation and expenditure of funds to complete the training or studies outside their countries of origin of students whose course of study or training program began before assistance was terminated.

“(b) LIABILITY TO CONTRACTORS.—For the purpose of making an equitable settlement of termination claims under extraordinary contractual relief standards, the President is authorized to adopt as a contract or other obligation of the United States Government, and assume (in whole or in part) any liabilities arising thereunder, any contract with a United States or third-country contractor that had been funded with assistance under such Acts prior to the termination of assistance.

“(c) TERMINATION EXPENSES.—Amounts certified as having been obligated for assistance subsequently terminated by the President, or pursuant to any provision of law, shall continue to remain available and may be reobligated to meet any necessary expenses arising from the termination of such assistance.

“(d) GUARANTY PROGRAMS.—Provisions of this or any other Act requiring the termination of assistance under this or any other Act shall not be construed to require the termination of guarantee commitments that were entered into prior to the effective date of the termination of assistance.

“(e) RELATION TO OTHER PROVISIONS.—Unless specifically made inapplicable by another provision of law, the provisions of this section shall be applicable to the termination of assistance pursuant to any provision of law.”.

TITLE I—MICROENTERPRISE FOR SELF-RELIANCE ACT OF 2000Microenterprise
for Self-Reliance
Act of 2000.**SEC. 101. SHORT TITLE.**

This title may be cited as the “Microenterprise for Self-Reliance Act of 2000”.

22 USC 2151
note.**SEC. 102. FINDINGS AND DECLARATIONS OF POLICY.**

Congress makes the following findings and declarations:

(1) According to the World Bank, more than 1,200,000,000 people in the developing world, or one-fifth of the world’s population, subsist on less than \$1 a day.

(2) Over 32,000 of their children die each day from largely preventable malnutrition and disease.

(3)(A) Women in poverty generally have larger work loads and less access to educational and economic opportunities than their male counterparts.

(B) Directly aiding the poorest of the poor, especially women, in the developing world has a positive effect not only on family incomes, but also on child nutrition, health and education, as women in particular reinvest income in their families.

(4)(A) The poor in the developing world, particularly women, generally lack stable employment and social safety nets.

(B) Many turn to self-employment to generate a substantial portion of their livelihood. In Africa, over 80 percent of employment is generated in the informal sector of the self-employed poor.

(C) These poor entrepreneurs are often trapped in poverty because they cannot obtain credit at reasonable rates to build their asset base or expand their otherwise viable self-employment activities.

(D) Many of the poor are forced to pay interest rates as high as 10 percent per day to money lenders.

(5)(A) The poor are able to expand their incomes and their businesses dramatically when they can access loans at reasonable interest rates.

(B) Through the development of self-sustaining micro-finance programs, poor people themselves can lead the fight against hunger and poverty.

(6)(A) On February 2–4, 1997, a global Microcredit Summit was held in Washington, District of Columbia, to launch a plan to expand access to credit for self-employment and other financial and business services to 100,000,000 of the world’s poorest families, especially the women of those families, by 2005. While this scale of outreach may not be achievable in this short time-period, the realization of this goal could dramatically alter the face of global poverty.

(B) With an average family size of five, achieving this goal will mean that the benefits of microfinance will thereby reach nearly half of the world’s more than 1,000,000,000 absolute poor people.

(7)(A) Nongovernmental organizations, such as those that comprise the Microenterprise Coalition (such as the Grameen Bank (Bangladesh), K-REP (Kenya), and networks such as Accion International, the Foundation for International Community Assistance (FINCA), and the credit union movement) are successful in lending directly to the very poor.

(B) Microfinance institutions such as BRAC (Bangladesh), BancoSol (Bolivia), SEWA Bank (India), and ACEP (Senegal) are regulated financial institutions that can raise funds directly from the local and international capital markets.

22 USC 2151f
note.

PUBLIC LAW 106-309—OCT. 17, 2000

(8)(A) Microenterprise institutions not only reduce poverty, but also reduce the dependency on foreign assistance.

(B) Interest income on the credit portfolio is used to pay recurring institutional costs, assuring the long-term sustainability of development assistance.

(9) Microfinance institutions leverage foreign assistance resources because loans are recycled, generating new benefits to program participants.

(10)(A) The development of sustainable microfinance institutions that provide credit and training, and mobilize domestic savings, is a critical component to a global strategy of poverty reduction and broad-based economic development.

(B) In the efforts of the United States to lead the development of a new global financial architecture, microenterprise should play a vital role. The recent shocks to international financial markets demonstrate how the financial sector can shape the destiny of nations. Microfinance can serve as a powerful tool for building a more inclusive financial sector which serves the broad majority of the world's population including the very poor and women and thus generate more social stability and prosperity.

(C) Over the last two decades, the United States has been a global leader in promoting the global microenterprise sector, primarily through its development assistance programs at the United States Agency for International Development. Additionally, the Department of the Treasury and the Department of State have used their authority to promote microenterprise in the development programs of international financial institutions and the United Nations.

(11)(A) In 1994, the United States Agency for International Development launched the "Microenterprise Initiative" in partnership with the Congress.

(B) The initiative committed to expanding funding for the microenterprise programs of the Agency, and set a goal that, by the end of fiscal year 1996, one-half of all microenterprise resources would support programs and institutions that provide credit to the poorest, with loans under \$300.

(C) In order to achieve the goal of the microcredit summit, increased investment in microfinance institutions serving the poorest will be critical.

(12) Providing the United States share of the global investment needed to achieve the goal of the microcredit summit will require only a small increase in United States funding for international microcredit programs, with an increased focus on institutions serving the poorest.

(13)(A) In order to reach tens of millions of the poorest with microcredit, it is crucial to expand and replicate successful microfinance institutions.

(B) These institutions need assistance in developing their institutional capacity to expand their services and tap commercial sources of capital.

(14) Nongovernmental organizations have demonstrated competence in developing networks of local microfinance institutions and other assistance delivery mechanisms so that they reach large numbers of the very poor, and achieve financial sustainability.

(15) Recognizing that the United States Agency for International Development has developed very effective partnerships with nongovernmental organizations, and that the Agency will have fewer missions overseas to carry out its work, the Agency should place priority on investing in those nongovernmental network institutions that meet performance criteria through the central funding mechanisms of the Agency.

PUBLIC LAW 106–309—OCT. 17, 2000

(16) By expanding and replicating successful microfinance institutions, it should be possible to create a global infrastructure to provide financial services to the world's poorest families.

(17)(A) The United States can provide leadership to other bilateral and multilateral development agencies as such agencies expand their support to the microenterprise sector.

(B) The United States should seek to improve coordination among G–7 countries in the support of the microenterprise sector in order to leverage the investment of the United States with that of other donor nations.

(18) Through increased support for microenterprise, especially credit for the poorest, the United States can continue to play a leadership role in the global effort to expand financial services and opportunity to 100,000,000 of the poorest families on the planet.

SEC. 109. UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT AS GLOBAL LEADER AND COORDINATOR OF BILATERAL AND MULTILATERAL MICROENTERPRISE ASSISTANCE ACTIVITIES.

(a) **FINDINGS AND POLICY.**—Congress finds and declares that—

(1) the United States can provide leadership to other bilateral and multilateral development agencies as such agencies expand their support to the microenterprise sector; and

(2) the United States should seek to improve coordination among G-7 countries in the support of the microenterprise sector in order to leverage the investment of the United States with that of other donor nations.

(b) **SENSE OF THE CONGRESS.**—It is the sense of the Congress that—

(1) the Administrator of the United States Agency for International Development and the Secretary of State should seek to support and strengthen the effectiveness of microfinance activities in United Nations agencies, such as the United Nations Development Program (UNDP), which have provided key leadership in developing the microenterprise sector; and

(2) the Secretary of the Treasury should instruct each United States Executive Director of the multilateral development banks (MDBs) to advocate the development of a coherent and coordinated strategy to support the microenterprise sector and an increase of multilateral resource flows for the purposes of building microenterprise retail and wholesale intermediaries.

SEC. 110. SENSE OF THE CONGRESS ON CONSIDERATION OF MEXICO AS A KEY PRIORITY IN MICROENTERPRISE FUNDING ALLOCATIONS.

(a) **FINDINGS.**—Congress makes the following findings:

PUBLIC LAW 106-309—OCT. 17, 2000

(1) An estimated 45,000,000 of Mexico's 100,000,000 population currently lives below the poverty line, accounting for 20 percent of all poor in Latin America.

(2) Mexico cannot create enough salaried jobs to absorb new workers entering the labor force.

(3) While many poor families depend on microenterprise initiatives to generate a livelihood, the United States Agency for International Development currently has two microcredit projects in Mexico, receiving less than 1 percent of overall microenterprise funding in Latin America and the Caribbean during the last decade.

(4) Mexico's microenterprise activity has been constrained because its financial institutions cannot expand financial services to a larger clientele due to a lack of capital, inefficient financial and administrative management, and a lack of institutional support for microfinance institutions' particular needs.

(5) Mexican nongovernmental organizations, such as Compartamos, have demonstrated competence in developing local microfinance programs.

(6) On July 2, 2000, Vicente Fox Quesada of the Alliance for Change was elected President of the United Mexican States.

(7) The President-elect of Mexico has identified entrepreneurship and the start-up of new microcredit institutions as key economic priorities.

(8) Microenterprise and entrepreneurial initiatives have proven to be successful components of free market development and economic stability.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) providing Mexico's poor with economic opportunity and microfinance services is fundamental to Mexico's economic development;

(2) microenterprise can have a positive impact on Mexico's free market development; and

(3) the United States Agency for International Development should consider Mexico as a key priority in its microenterprise funding allocations.

Government Act
of 2000.

TITLE II—INTERNATIONAL ANTI-CORRUPTION AND GOOD GOVERNANCE ACT OF 2000

22 USC 2151
note.

SEC. 201. SHORT TITLE.

This title may be cited as the "International Anti-Corruption and Good Governance Act of 2000".

22 USC 2152c
note.

SEC. 202. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Widespread corruption endangers the stability and security of societies, undermines democracy, and jeopardizes the social, political, and economic development of a society.

(2) Corruption facilitates criminal activities, such as money laundering, hinders economic development, inflates the costs of doing business, and undermines the legitimacy of the government and public trust.

(3) In January 1997 the United Nations General Assembly adopted a resolution urging member states to carefully consider the problems posed by the international aspects of corrupt practices and to study appropriate legislative and regulatory measures to ensure the transparency and integrity of financial systems.

(4) The United States was the first country to criminalize international bribery through the enactment of the Foreign

PUBLIC LAW 106-309—OCT. 17, 2000

Corrupt Practices Act of 1977 and United States leadership was instrumental in the passage of the Organization for Economic Cooperation and Development (OECD) Convention on Combatting Bribery of Foreign Public Officials in International Business Transactions.

(5) The Vice President, at the Global Forum on Fighting Corruption in 1999, declared corruption to be a direct threat to the rule of law and the Secretary of State declared corruption to be a matter of profound political and social consequence for our efforts to strengthen democratic governments.

(6) The Secretary of State, at the Inter-American Development Bank's annual meeting in March 2000, declared that despite certain economic achievements, democracy is being threatened as citizens grow weary of the corruption and favoritism of their official institutions and that efforts must be made to improve governance if respect for democratic institutions is to be regained.

(7) In May 1996 the Organization of American States (OAS) adopted the Inter-American Convention Against Corruption requiring countries to provide various forms of international cooperation and assistance to facilitate the prevention, investigation, and prosecution of acts of corruption.

(8) Independent media, committed to fighting corruption and trained in investigative journalism techniques, can both educate the public on the costs of corruption and act as a deterrent against corrupt officials.

(9) Competent and independent judiciary, founded on a merit-based selection process and trained to enforce contracts and protect property rights, is critical for creating a predictable and consistent environment for transparency in legal procedures.

(10) Independent and accountable legislatures, responsive political parties, and transparent electoral processes, in conjunction with professional, accountable, and transparent financial management and procurement policies and procedures, are essential to the promotion of good governance and to the combat of corruption.

(11) Transparent business frameworks, including modern commercial codes and intellectual property rights, are vital to enhancing economic growth and decreasing corruption at all levels of society.

(12) The United States should attempt to improve accountability in foreign countries, including by—

(A) promoting transparency and accountability through support for independent media, promoting financial disclosure by public officials, political parties, and candidates for public office, open budgeting processes, adequate and effective internal control systems, suitable financial management systems, and financial and compliance reporting;

(B) supporting the establishment of audit offices, inspectors general offices, third party monitoring of government procurement processes, and anti-corruption agencies;

(C) promoting responsive, transparent, and accountable legislatures that ensure legislative oversight and whistleblower protection;

(D) promoting judicial reforms that criminalize corruption and promoting law enforcement that prosecutes corruption;

(E) fostering business practices that promote transparent, ethical, and competitive behavior in the private sector through the development of an effective legal framework for commerce, including anti-bribery laws, commercial codes that incorporate international standards for business

The successful transition of a developing country is dependent upon the quality of its economic and governance institutions. Rule of law, mechanisms of accountability and transparency, security of person, property, and investments, are but a few of the critical governance and economic reforms that underpin the sustainability of broad-based economic growth. Programs in support of such reforms strengthen the capacity of people to hold their governments accountable and to create economic opportunity.”.

International
Malaria Control
Act of 2000.**TITLE I—ASSISTANCE FOR
INTERNATIONAL MALARIA CONTROL**22 USC 2151
note.**SEC. 101. SHORT TITLE.**

This title may be cited as the “International Malaria Control Act of 2000”.

22 USC 2151b-1
note.**SEC. 102. FINDINGS.**

Congress makes the following findings:

(1) The World Health Organization estimates that there are 300,000,000 to 500,000,000 cases of malaria each year.

(2) According to the World Health Organization, more than 1,000,000 persons are estimated to die due to malaria each year.

(3) According to the National Institutes of Health, about 40 percent of the world’s population is at risk of becoming infected.

(4) About half of those who die each year from malaria are children under 9 years of age.

(5) Malaria kills one child each 30 seconds.

(6) Although malaria is a public health problem in more than 90 countries, more than 90 percent of all malaria cases are in sub-Saharan Africa.

(7) In addition to Africa, large areas of Central and South America, Haiti and the Dominican Republic, the Indian sub-continent, Southeast Asia, and the Middle East are high risk malaria areas.

(8) These high risk areas represent many of the world’s poorest nations.

(9) Malaria is particularly dangerous during pregnancy. The disease causes severe anemia and is a major factor contributing to maternal deaths in malaria endemic regions.

(10) “Airport malaria”, the importing of malaria by international aircraft and other conveyances, is becoming more common, and the United Kingdom reported 2,364 cases of malaria in 1997, all of them imported by travelers.

(11) In the United States, of the 1,400 cases of malaria reported to the Centers for Disease Control and Prevention in 1998, the vast majority were imported.

(12) Between 1970 and 1997, the malaria infection rate in the United States increased by about 40 percent.

(13) Malaria is caused by a single-cell parasite that is spread to humans by mosquitoes.

(14) No vaccine is available and treatment is hampered by development of drug-resistant parasites and insecticide-resistant mosquitoes.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should play an active role in maintaining Macau’s confidence and prosperity, Macau’s unique cultural heritage, and the mutually beneficial ties between the people of the United States and the people of Macau;

(2) through its policies, the United States should contribute to Macau’s ability to maintain a high degree of autonomy in matters other than defense and foreign affairs as promised by the People’s Republic of China and the Republic of Portugal in the Joint Declaration, particularly with respect to such matters as trade, commerce, law enforcement, finance, monetary policy, aviation, shipping, communications, tourism, cultural affairs, sports, and participation in international organizations, consistent with the national security and other interests of the United States; and

prec. 28101.

SEC. 301. SHORT TITLE.

This title may be cited as the “Rails to Resources Act of 2000”.

SEC. 302. FINDINGS.

Congress finds that—

(1) rail transportation is an essential component of the North American intermodal transportation system;

(2) the development of economically strong and socially stable communities in the western United States and Canada was encouraged significantly by government policies promoting the development of integrated transcontinental, interstate and interprovincial rail systems in the States, territories and provinces of the two countries;

(3) United States and Canadian federal support for the completion of new elements of the transcontinental, interstate and interprovincial rail systems was halted before rail connections were established to the State of Alaska and the Yukon Territory;

(4) rail transportation in otherwise isolated areas facilitates controlled access and may reduce overall impact to environmentally sensitive areas;

(5) the extension of the continental rail system through northern British Columbia and the Yukon Territory to the current terminus of the Alaska Railroad would significantly benefit the United States and Canadian visitor industries by facilitating the comfortable movement of passengers over long distances while minimizing effects on the surrounding areas; and

(6) ongoing research and development efforts in the rail industry continue to increase the efficiency of rail transportation, ensure safety, and decrease the impact of rail service on the environment.
